BOSTON RED SOX WIN THEIR SECOND GAME

New York Giants Again Meet Defeat on Home
Grounds by Score of 3 to 1—Brilliant
Playing by Both Teams

Boston..... 3
New York..... 1

Polo Grounds, New York, Oct. 11.—Sudden clouds and a constant threatening rain failed to dampen the ardor of thousands of New York baseball enthusiasts who started out to the Polo grounds to-day to see the fourth game of the world's series between the New York Nationals and the Boston Americans.

The National Commission did not decide to play the game until a few minutes before noon, when the playing field was very soggy, a game could be played if no more rain fell. A heavy rainfall during the night made a slow playing field, but the commission decided that it would be better to play as weather indications were for rain to-morrow. There was a wild yell of joy from the crowd when the gates were opened.

Not more than 200 persons were at gates at the Polo grounds this morning. Intermittent showers, starting shortly before midnight, together with the lesson of Tuesday night that an all-night vigil was not absolutely essential to the pre-camping of a seat, kept the night line down.

Boston's contingent of rooters came over not a whit less confident because of yesterday's defeat. The break of the game in a bit of unfortunate coaching and a remarkable catch at a crucial point had gone against them, they agreed.

"We are in a better way than the Sox for pitchers," said Manager McGraw, "and it looks to me as if the edge was ours."

There was none too long a rest for any of the players, however, for their train was late in arriving from Boston, and it began to look as if the strain of the nightly switch from one city to another might begin to tell if the series was prolonged.

Heroes have sprung from the games already played. Over in Boston Wood, Speaker and Gardner, together with Manager Jake Stahl are idols. New York fans to-day had a crop to worship. Chief among them were Herzog and Murray and Devore, while Fletcher, too, the unfortunate victim of over-anxiousness, which led to costly error-making in the first two battles, has redeemed himself by brilliant work at the bat and in the field in the latest Boston encounter. Marquard's development into a factor in the world's series was a course of much satisfaction to local fans.

Betting on the series went to even as a result of the Giants' victory. To-day for the first time since the series opened Giant backers were not asking odds.

The total sum allotted to the players three games played, as against \$127,000 odd for the entire share last year. The players' share for the first game here was \$40,563.

Crandall was again the reserve man in prospect on the New York side if Tesreau weakened or showed signs of caving in.

The home club was the first on the field. The usual batting practice followed.

An hour and a half before the game found the sun screened with dull gray clouds and there was a suspicion of mist in the air. The infield was in fairly good condition for playing, but the outfield was soaked from the rain-fall and very slippery.

Red Sox fans were disheartened over the understanding that Tris Speaker probably would be unable to play, as his ankle was in bad shape. He is swollen and he limped as he walked across the field with the Boston club. Hendrickson will go to the outfield should Speaker be unable to play.

Although the field was heavy from rain, fielding practice of the teams was both sharp and brilliant. Near the bags and around the home plate the groundkeeper had sprinkled sand to take up the moisture.

Wood and Cady warmed up for the Red Sox, while Tesreau and Wilson warmed up for the Giants.

The Teams.

The battery order follows:
Boston.—Hooper, c.f.; Yerkes, 2b.; Speaker, c.f.; Lewis, 1b.; Gardner, 2b.; Stahl, 1b.; Wagner, s.s.; Cady, c.; Wood, p.
New York.—Devore, 1b.; Doyle, 2b.; Snodgrass, c.f.; Murray, r.f.; Merkle, 1b.; Herzog, 3b.; Meyers, c.; Fletcher, s.s.; Tesreau, p.

Umpire Rigler went behind the plate. Evans to left field, Klem to right field, and O'Loughlin to the bases.

THE GAME.

First Inning.
Boston.—The first ball pitched was a strike, which gave the crowd a chance to cheer. Hooper singled over second after having three balls and two strikes called on him. Yerkes hunted the ball and Meyers picked it up and threw wildly over second, trying to catch Hooper. Hooper was held at second. With Hooper on second and Yerkes on first the Boston crowd turned loose a loud cheer. Yerkes was forced at second when Fletcher took Speaker's grounder and tossed to Doyle, who completed a double play by throwing No runs, one hit, no errors.

New York.—Devore out, Wagner to the play. Fletcher threw out Lewis at first. No runs, one hit, one error.
New York.—Wood curved the ball out for a strike on Devore. Devore fanned, being unable to gauge Wood's speedy shots. Doyle singled to left. Doyle was forced at second when Gardner took Snodgrass' grounder and threw to Yerkes. Snodgrass was caught napping at first. Wood to Stahl. No runs, one hit, no errors.

Second Inning.
Boston.—Gardner drove a long hit to center for three bases. On a wild pitch Gardner scored. Stahl sent up a high fly which Doyle caught. Three New York pitchers are now warming up in the back field. Wagner flew to Snodgrass. Cady struck out. One run, one hit, no errors.

New York.—Murray struck out on three pitched balls. He did not connect with any of them. One was an inshoot and the two others were drop curves. Merkle singled to right after having two strikes called on him; he stole second. Cady's throw being wild and high. Herzog went out. Yerkes to Stahl. Merkle took third on the play. Meyers flied to Lewis, who judged the ball badly and only caught it by leaping in the air. No runs, one hit, no errors.

Third Inning.
Boston.—The New York crowd gave Joe Wood a great hand applause when he went to the plate. Wood singled to right. Hooper walked to first on four wide balls. Wood was forced at third when Tesreau took Yerkes' grounder and threw to Herzog. Doyle threw out Speaker at first. Hooper advancing to third and Yerkes to second on the play. Lewis was thrown out at first. Fletcher to Merkle. No runs, one hit, no errors.

New York.—Fletcher went out, Wood to Stahl. Tesreau struck out on three pitched balls. Devore out, Gardner to Stahl. No runs, no hits, no errors.

Fourth Inning.
Boston.—Gardner walked as Tesreau was unsteady and could not locate the plate. Gardner was forced at second when Tesreau took Stahl's grounder and tossed it to Fletcher. Stahl stole second. Meyers' throw being wide. Wagner was out on a grounder to Merkle, unassisted. Stahl took third on the play. Stahl scored on Cady's hit, which Fletcher could not intercept. Wood flied out to Murray. One run, one hit, no errors.

New York.—Doyle was out, Yerkes to Stahl. Yerkes made a pretty play on Doyle's slow bouncer. Snodgrass struck out. Wood's curves were bewildering and his speed terrific. Murray struck out for the second time, and the New York crowd got up and cheered Wood. No runs, no hits, no errors.

Fifth Inning.
Boston.—Hooper flied to Murray, who took the ball off the concrete wall with his gloved hand. A foot higher and the ball would have bounded off the wall, and the runner would probably have made third base. The crowd was wild over the catch. Yerkes shot a hot single to left. Yerkes was forced at second when Herzog took Speaker's grounder, and threw to Doyle. Speaker was out stealing. Meyers to Doyle. No runs, one hit, no errors.

New York.—Merkle was out, Wagner to Stahl. Wagner took the batter's grounder just over second, and made a lightning throw to first. Herzog singled to right, Stahl being only able to knock down the ball. Meyers struck out on three pitched balls. It was Wood's sixth strikeout. Fletcher was out when Wagner took his hit over second, and threw him out at first by an eyelash. No runs, one hit, no errors.

Sixth Inning.
Boston.—Lewis was a strike out victim. Gardner sent up a high foul to Herzog. Stahl struck out. This was the first inning that the Bostonians did not make a hit off Tesreau. No runs, no hits, no errors.

New York.—Tesreau singled to left. Devore got an infield hit. The ball hit Wood and bounded into foul territory. Tesreau went to second. Doyle sent up a high fly to Yerkes. Devore was forced at second when Yerkes took Snodgrass' grounder and threw to Wagner. Tesreau went to third on the play. Snodgrass was out on Murray's smash to Yerkes, who threw to Wagner. No runs, two hits, no errors.

Seventh Inning.
Boston.—Wagner struck out. Cady also struck out. Of the last five men to face Tesreau four struck out. Wood flied to Murray. No runs, no hits, no errors.

New York.—Merkle struck out. Herzog singled past Wagner. Meyers flied to Speaker. Herzog scored on Fletcher's double to right. McCormick went to the bat for Tesreau. Fletcher was out at the plate when Yerkes took McCormick's grounder and threw to Cady, who touched the shortstop as he slid toward the plate. One run, three hits, no errors.

Eighth Inning.
Boston.—Ames went into the box for New York. Hooper sent a high fly to Fletcher. Fletcher threw Yerkes out at first. Speaker got a double to left. First. Speaker got a double to left. Lewis went out. Fletcher to Merkle. No runs, one hit, no errors.

New York.—Devore out, Wagner to

SPEECH AT THE POTLATCH TO-NIGHT

Aunt asks the Premier for permission to print his speech in advance of its delivery, as was done with the civic address to the Governor-General, and the old lady is really disgusted when Sir Richard tells her that the honor and glory of first delivering the "message" must remain with him.

REFORM NEEDED IN HOUSE OF LORDS

GOVERNMENT ATTACKED
BY LORD SELBOURNE

Declares Ministry is Buying
Support in Return for
Shoddy Titles

London, Oct. 11.—That the present government is raising a new plutocracy in England by buying its support in return for shoddy titles, was the declaration made by Lord Selbourne in a speech at Southampton last night to the National Unionist Association.

Besides condemning the Liberal government's support, Lord Selbourne asserts that the first task of the next Unionist government should be to reform the Lords, who, he believes, are badly in need of a cleaning up. The Liberal government is living at the present time without a constitution, and the fact accounts for the great revolt against Home Rule in Ulster.

The fiscal policy was undoubtedly forming the rich men into a plutocracy under the influence of the movement. He concluded by stating that the appeal of the political parties for reform was, on one side, prompted by patriotism, and on the other side by Mammon and Gammon.

Stahl, Wagner made another wonderful stop and throw. Doyle flied to Hooper. Wagner made an error on Snodgrass' smash and the runner was safe at first. Murray singled to left. Snodgrass taking second. It was a hit-and-run play. Merkle fanned. No runs, one hit, one error.

Ninth Inning.
Boston.—Gardner singled to center. Stahl sacrificed Ames to Merkle. Gardner took second. Ames was unsteady and Wagner walked to first. Wagner was forced at second when Fletcher took Cady's grounder and tossed it to Doyle. Gardner went to third on the play. Gardner scored on Wood's single to right. Cady taking third. Hooper flied to Snodgrass. One run, two hits, no errors.

New York.—Herzog flied to Speaker. Meyers fouled out to Cady. Fletcher popped to Stahl. No runs, no hits, no errors.

The score:

Boston..... 3 1 1
New York..... 1 2 1

CONSERVATIVES AND PREFERENCE

QUESTION IS CAUSING
SOME ANXIETY

Farmers Favor Increase but
Manufacturers Object to
Extension

Ottawa, Oct. 11.—The British preference may be reduced during the coming session of parliament. It may be allowed to stand, as at present, but it will not be increased.

What to do with the preference is giving the government a good deal of anxiety. Any changes which are made in it will be in the direction of a reduction. The organized farmers of Canada have asked that the British preference should be increased and the English manufacturer put in a better position to trade with Canada.

Canadian manufacturers have protested against any extension of the preference to Britain, and in some instances have asked for its abolition. The attitude of Canadian manufacturers generally toward the preference is indicated by the answer given to the British manufacturers who toured Canada this summer. They asked the Canadian manufacturers to agree to an increase on all articles not now being made in Canada. Mr. Gourlay, speaking for the Canadian Manufacturers' Association, declined to agree on the ground that there is no article which may not some time be made in Canada.

Exciting Scenes at Fire.
Girls Leap From Second Storey Windows of Burning Factory.

Chicago, Oct. 11.—Girls jumped from the second storey windows and more than 300 young women, boys and men fled in a panic from the plant of the Hargard & Marcusson Company, bedding manufacturers, here yesterday, when fire attacked the building. A number of women had narrow escapes from suffocation.

SCORES FIRST LORD OF ADMIRALTY

A. J. BALFOUR REPLIES
TO RECENT SPEECH

Says Winston Churchill Pro-
poses to Govern United King-
dom by Decimal Fractions

London, Oct. 11.—Speaking at Haddington, Scotland, yesterday, Right Hon. Arthur J. Balfour made a strong attack on Home Rule. He twitted Right Hon. Winston Churchill for his speech at Dundee, when he advocated the introduction of more parliaments in Great Britain something after the American style, and called the system one to govern the United Kingdom by decimal fractions.

According to Mr. Balfour, the oration given by Churchill at Dundee was really "nothing more than a masterpiece of political irony. In fact, he had himself misunderstood the meaning of the First Lord of the Admiralty wished to convey."

However, Mr. Balfour explained to his audience the real state of affairs that had prompted Mr. Churchill to deliver the Dundee oration.

"On returning from his Belfast expedition," explained Mr. Balfour, "the Right Hon. Mr. Churchill was quite convinced that Home Rule would be an absolute impossibility. Failing to convince his colleagues on this point, our friend tried to adopt a conciliatory attitude by suggesting fractional parliaments, hence his Dundee speech."

WOMAN ELECTROCUTED.
Sacrifices Her Life in Saving Son Who Was Entangled in Electric Wire.

Walla Walla, Wash., Oct. 11.—Attempting to rescue her five-year-old son who stood bewildered while a live wire twisted and twined about him, Mrs. Thomas Murray of Starbuck was instantly killed. School children with sticks had been playing with the wire, which had fallen during a storm the night before, and the little Murray boy, in trying to imitate them, became frightened when the wire sparked and spluttered about him and screamed for help. His mother rushed to the rescue and herself was killed when she tried to pull her boy to safety. The little fellow was unhurt and ran to summon aid for his mother, who was found dead. The father is in California.

C. N. R. RATES IN BRITISH COLUMBIA

DOMINION BOARD HAS
NO JURISDICTION

Question of Reasonableness
Rests With Provincial Gov-
ernment, Says Mr. Hanna

Ottawa, Oct. 11.—At an investigation of western rates before the Dominion railway board, railway companies, in order to meet the charge of discrimination as to western provinces and to show that their rates are reasonable, have filed voluminous statements, which have been in the course of preparation for months past. Counsel for the Dominion and provinces reserved general cross-examination of witnesses called to explain these statements; but, in the course of cross-examinations by W. A. MacDonald, K. C., counsel acting for British Columbia, some features were developed of special interest to that province.

Mr. Hanna, vice-president of the Canadian Northern Pacific, stated that his company had under construction an extension of the Canadian Northern through the Rocky mountains to the Pacific coast; but as the company was incorporated under a provincial act, that its rates would not be under the jurisdiction of the Dominion railway board, and that, while they would seek to obtain as high rates as possible, the company was controlled as to their reasonableness by the government of British Columbia. The maximum grade over the mountains was five-tenths of one per cent, and competition generally resulted in reduction, but rates to be established when the railway was completed had not yet been considered.

In the Vancouver board of trade application, statements were submitted showing a comparison cost of the operation per ton per mile on each division of the C. P. R., but Mr. Hanna admitted that this was not a fair basis in fixing rates. Mr. Dalrymple, a vice-president of the G. T. R. emphasized this, by stating that a tariff of rates prepared in this manner would be worthless.

Export of grain from Alberta and Saskatchewan by way of the Pacific coast was discussed. It was shown that the export rate on wheat to Vancouver from Calgary was 19 1/2 cents for 440 miles, as compared with the rate of 48c. from Calgary to St. John, a distance of 2,756 miles. It was contended by Mr. Lanigan that the rail rate did not affect the grain situation on the Pacific coast, but that it was controlled by the cost of ocean freights to Liverpool, and that the low cost of transportation from Atlantic ports to Liverpool offset the long railway carriage by land.

It appeared that at certain seasons of the year wheat was transported by rail from Fort William to St. John at 13 1/2 cents, being without profit to the railway company, but, it was stated that even a non-paying freight rate from Calgary to the Pacific coast would not divert grain traffic so as to adopt that route.

The C. P. R. showed that a large tonnage of the freight hauled in British Columbia consisted of ore transported at a very low rate to smelters in Southern British Columbia, and that lumber was brought from British Columbia to the coast.

SHOOT HIS SON.
Man Also Wounds Wife and Sister—
Former May Die.

Akron, O., Oct. 11.—John V. McDonald, a plumber, to-day shot and killed his three-year-old son and then fired bullets into the heads of his wife and sister. Mrs. McDonald is believed to be fatally wounded and the sister is in a serious condition. McDonald was arrested.

POLICE INSPECTOR
SHOT BY BURGLAR

Slain While Attempting to Cap-
ture Robber—Murderer
Makes His Escape

London, Oct. 11.—Inspector Walls, of the East Borne police force, was shot dead last night by a burglar who had broken into the home of the Countess Starey. The murder has caused considerable comment and has agitated society circles.

It appears that the East Borne police received a message by telephone that a man was robbing the beautiful home of the countess and a posse of police, under Inspector Walls, was rushed to the residence.

Placing his men around the house, the inspector entered by the front door of the house, to be confronted by the burglar, who, without hesitation, shot and instantly killed the police officer, and escaped before the other men could get to the scene of the shooting.

MONTENEGRINS ARE PRESSING FORWARD

ANOTHER TURKISH
POSITION TAKEN

Heavy Losses in Frontier
Fighting—More Troops Sent
to European Turkey

London, Oct. 11.—The fall of the Turkish city of Scutari is imminent. Unless Turkish reinforcements arrive soon the town, with its manufactures of firearms, will be taken by the advancing Montenegrin army.

Turkish military authorities are not prepared on that frontier as on the Serbian and Bulgarian borders. Hence the reported continued success of King Nicholas' forces.

The Montenegrins followed up their success by capturing yesterday the fort in Tushi, thus improving the road for an advance on Scutari and an official telegram received by the consul-general of Montenegro in London says the advance has begun. It is pointed out here, however, that the way cannot be travelled without serious fighting as the Albanians in the vicinity have been aroused.

Heavy Losses.
Podgoritz, Montenegro, Oct. 11.—The Montenegrin troops followed up their success in capturing Detitch Mountain from the Turks by taking late last evening the Turkish fort, which dominates the town of Tushi from Schipcin Hill.

Both forces suffered heavy losses in killed and wounded. The fighting lasted fourteen hours.

The road to the Turkish town of Tushi further north is now open to the advance of the Montenegrin army.

Blockhouses Captured.

St. Petersburg, Oct. 11.—A dispatch from Podgoritz, Montenegro, says the Montenegrin southern army, under the command of General Martinovich, has crossed the river Boyana and captured several Turkish blockhouses at Tarakosch, near the Turkish town of Scutari.

The Russian minister of marine has postponed his proposed visit to Paris owing to possible complications in the Black Sea.

Fighting in Progress.
Constantinople, Oct. 11.—Fighting between the Turkish and Montenegrin troops was still in progress this morning in the region of Tushi, to the north of Scutari. No further details have reached here.

The collective note of the five powers was handed to the Turkish foreign minister by the Austrian representative yesterday. It is understood that the note embodies a plan to discuss with the Porte the relations of the reforms in European Turkey on the basis of declarations of the Roumanian commission of 1880. Little weight is attached to the note, and it is said that after its consideration by the council the Porte will make a formal reply the Turkey has already undertaken the reform question.

According to an official report the Montenegrins have sustained a defeat in their attack on Berana, but the fighting still continues in this district. It is reported also that Bulgaria's attack against Soguchuk and Yonikopoh, in the Dospa region, has been repulsed. The Bulgarian posts in the Thrush zone have been reinforced. Corresponding measures are being adopted by the Turkish side.

Turkey Strengthens Forces.
Constantinople, Oct. 11.—(By wireless from a steamer in the Dardanelles to Kustendje, Roumania).—No fewer than 140,000 Turkish troops from Asia Minor will, it is estimated, be concentrated within a week in European Turkey. This will bring the effective force of the Turkish army there up to 400,000 men.

Turkish officials say that the day of trial has found the military depots full of stores and army equipment, and all of good quality.

If the Bulgarians are counting on the superiority of their organization and the greater rapidity with which their army can be mobilized to give them a material advantage, they will, according to Turkish officials, receive a disagreeable surprise.

The Ottoman authorities for months have been gradually strengthening their defence and concentrating troops in the important zone, comprising Adrianople and Kilkisli, just south of the Bulgarian frontier. Since the general mobilization was ordered a great stream of men has been pouring into the district at the rate latterly of 30,000 daily.

The Redifs, or men of the second reserve now being brought from Asia Minor, are determined once for all that the Bulgarians, whose persistent intrigues in Macedonia, the Redifs say, caused them to be constantly called from their homes, is to receive a sound lesson. They have decided to take no prisoners and give no quarter. The reliability of the Christians serving in the ranks of the Turkish army is one of the great problems of the moment for the Ottoman commanders.

The feeling among native Christians may be gauged to a certain extent by their effort to escape from service by the payment of a tax or by bolting abroad.

NATIONAL INSURANCE.

Australian Government Will Adopt Policy on Lines of Lloyd George's Scheme.

London, Oct. 11.—The Melbourne correspondent of the Daily Chronicle says that the most significant outcome of parliamentary discussion on Premier Fisher's maternity grant bill (which

provides for a payment of five pounds upon the birth of every child) is the commitment of the Liberal party to a national insurance policy on the lines of Lloyd George's scheme. A section of the Labor party opposes any such scheme which embodies the element of thrift, but the Liberals have decided upon a vigorous insurance campaign during the forthcoming elections.

STANDARD OIL AND STATE POLITICS

PRESIDENT ARCHBOLD BEFORE COMMITTEE

Examined Regarding Recently Published Letters — Payments for Legal Services

Washington, D. C., Oct. 11.—John D. Archbold, of the Standard Oil Company, testified yesterday afternoon before the Clapp committee, investigating campaign funds. His examination related to the "Archbold letters" between himself and former Senators Borah, Quay and Hanna and former Representative Grosvenor and Sibley. Certificates of deposit sent to Mr. Foraker, he said, were for payment of legal services to the Standard Oil Company in Ohio, "that, and nothing more."

Some of the letters said to have been written to him by men named, Mr. Archbold could not remember having received, but was not prepared to say he had not. Of his own letters, his most frequent answer was, "I have no doubt I wrote it." Mr. Archbold did not deny the authorship of any.

Mr. Archbold testified that a receipt which the late Cornelius N. Bliss gave him for the company's \$100,000 contribution to the Roosevelt fund of 1904 had been destroyed just before the death of H. H. Rogers.

"It was not a thing of pleasure to look at," said Archbold.

A. H. Plant, controller of the Southern Railroad, said he knew of no contributions to the pre-convention campaign this year and did not turn over any funds to Commissioner Underwood's managers before or during the Baltimore convention.

Senator Dixon had testified it was common report that Mr. Plant had handled funds for the Underwood campaign.

Mr. Archbold followed Mr. Plant on the stand. Mr. Archbold had testified before the commission in August.

Chairman Clapp took up the examination of the Standard Oil magnate as to the so-called "Archbold letters." He first called attention to a letter to Senator J. B. Foraker, dated March 26, 1900, reading:

"In accordance with our understanding, I beg to enclose you a certificate of deposit for \$10,000 and ask for receipt in reply."

"I have no doubt I wrote the letter," said Mr. Archbold. "The payment was made for the services of Senator Foraker as counsel in our Ohio affairs. That and that only."

Senator Clapp showed the witness a reproduction of another letter written to Senator Foraker dated April 17,

1900, referring to an enclosed certificate for \$10,000.

"I have no doubt I wrote it," said Mr. Archbold. "What does that relate to?" "To the same business relationship," said Mr. Archbold.

Another letter of November 26, 1900, enclosing a certificate of deposit of \$10,000 "in pursuance of our understanding in our talk over the telephone," Mr. Archbold said, was sent as a result of the same "relationship," that of counsel.

Senator Clapp produced a copy of a magazine showing what purported to be a photographic copy of a letter to the late Senator M. A. Hanna, dated January 19, 1900.

"I have no recollection of it, but I've no doubt I wrote the letter," said Mr. Archbold.

"The letter referred to 'threatened and very objectionable legislation at Columbus,' concerning which Mr. Archbold said he had wanted to talk to Senator Hanna. It referred particularly to people active in supporting a resolution for 'an investigating committee,' and asked Senator Hanna 'to do everything possible to compass their defeat.'"

Mr. Archbold asked to be allowed to explain the letter.

"That was the year of 'strike' legislation in various state legislatures," said Mr. Archbold, "and it was necessary for corporate interests to appeal to their friends to prevent that sort of thing. It explains my letter to Senator Hanna."

Chairman Clapp then produced a copy of a letter from Archbold to former Representative G. H. Grosvenor, of Ohio, on October 27, 1900, enclosing \$1,000.

"I think that was to aid in his campaign for re-election," said Mr. Archbold.

Of another "printed copy" of a letter purporting to have been written by M. A. Hanna, of which there was no photographic copy, Mr. Archbold said he had "no recollection."

Mr. Archbold said he had "no recollection of a hand-written letter purporting to have been written by Senator Hanna in which he said: 'I want you people to help our state committee liberally. The demands on me are simply awful.'"

"I have been unable to find such a letter," said Mr. Archbold.

Mr. Archbold could not recollect receiving another letter, of which Senator Clapp showed him a photographic copy, written by Mr. Hanna, asking for assistance in the Ohio campaign ending with the postscript: "This whole fight is against the corporations and me as their champion."

The witness said he believed the handwriting was that of Senator Hanna.

Another purported Hanna letter was shown to Mr. Archbold, but he called attention to the fact that it was dated 1908. The senate committee had authority to ask only about letters written since 1900 and Chairman Clapp conceded the point.

Mr. Archbold said that he "had no doubt that he wrote a letter of March 20, 1903, to Senator Hanna, saying that 'we are anxious to learn that Smith W. Bennett is making a canvass for attorney-general of Ohio,' and asking that Senator Hanna do his best to prevent Bennett's election."

Archbold said he had "no doubt he wrote" a letter to former President A. J. Cassatt of the Pennsylvania Railroad urging that he aid in the election of Sibley to congress.

Senator Clapp proceeded to the identification of a letter copy dated February 18, 1900, purporting to have been written by Mr. Archbold to the late Senator M. S. Quay, of Pennsylvania. "I have no doubt I wrote it," he said.

The letter referred to the "new senator from California" and set forth that while the Standard Oil Company had "no direct relation" with him, Mr. Archbold would exercise such influence as was possible "through the Santa Fe."

A letter of October 30, 1902, to Quay, Mr. Archbold said, he had no doubt he wrote. The letter enclosed a certificate of deposit for \$10,000 and set forth that Senator Quay had "recently said some things disreputable about me which I think you should be ashamed of."

"Can you state what that \$10,000 was for?" asked Senator Clapp.

"Of course, my recollection is vague," said Mr. Archbold, "but it was for campaign fund, some Pennsylvania state matter."

The committee at that point took a recess.

FREIGHT RATE CASE ADJOURNED

Inquiry by Railway Board Will Be Resumed on November 4

Ottawa, Oct. 11.—After running for a little over three and a half days, the resumed inquiry into the western freight rates by the railway board was adjourned yesterday afternoon until November 4.

M. K. Cowan, counsel for the Alberta and Saskatchewan governments, took some exception to the date on the score that he might not be able to be present, but his protest did not prevail with the board, which desires that counsel for the federal and provincial governments and the Winnipeg Board of Trade will analyze all the facts and findings as presented by the railways and come back to Ottawa prepared to proceed with the cross-examination of the railway witnesses.

J. E. Dalrymple, vice-president of the G. T. R., was the last witness examined by the railway board yesterday. He did not go into detail, but said he agreed with the evidence submitted by the C. P. R. and C. N. R.

The railways have not closed their case, but will submit more evidence at the later sittings.

In commenting on the fact that the C. N. R. has been built largely on guarantees rather than land grants,

Mr. Hanna, in the course of his evidence, paid a warm tribute to the C. P. R. He said that the C. P. R. was entitled to the land grants at the time it had received them; that the promoters of the C. P. R. had risked their credit to build up the country, had taken great chances and had won out. The railway was a credit to the country, and now, when it was commencing to make some money, it would not be fair to rob it of legitimate profits.

Chairman Drayton thought the witness was wandering far afield, and Mr. Isaac Pitblado also objected to this line of testimony.

Mr. Hanna explained, however, that he desired to make a comparison between the C. P. R. and the Canadian Northern, and the general effect of the comparison was that if a general reduction of freight rates would constitute a hardship for the C. P. R., it would be infinitely worse for the C. N. R., which was in the early stages of its development and did not possess a valuable asset in the form of land subsidies.

DUKE OF CONNAUGHT ATTENDS REVIEW

Inspection of Artillery, Veterans and Cadets at Lethbridge—School Dedicated

Lethbridge, Alta., Oct. 11.—Yesterday's perfect weather more than made amends for the unpleasant weather of Wednesday evening, which did not, however, prevent the people of this city from turning out in thousands to cheer the Duke of Connaught and the Duchess of Connaught on their arrival. After the presentation of addresses of welcome at the pavilion in Galt Gardens the royal party returned to the train for the night.

Yesterday was proclaimed a civic holiday, and has been a day of enjoyment for the people of Lethbridge and the royal visitors. The first event of the day was the inspection of the 25th Battery Canadian Field Artillery, the veterans and the cadets. Several thousand people lined the sides of the inspection grounds.

For the second time since he left Ottawa on the present tour His Royal Highness was given the royal salute of 21 guns, the other occasion being on the arrival of the royal party at Victoria.

The march past of the various units completed the review. In crossing a ditch one of the horses in No. 2 section became entangled in the harness, and the whole section was compelled to halt. The duke was concerned at the mishap, and was pleased to find it was nothing serious.

In the afternoon H. R. H. dedicated the new building to be used for the department of manual training for boys and household training for girls in the public schools. The address from the public school board was read by Mr. W. S. Wallace, secretary of the board, and presented by Dr. Galbraith, the chairman, and in response H. R. H. said:

"I am very pleased to be accorded the privilege this afternoon of dedicating this building. The kind words which you have addressed to me have been very gratifying indeed, and I hope that all your good wishes will come true. I fully realize that this building is intended to fill a great need in education which has long been felt, and you are following the best precepts in educational training in providing it. I am sure that it will have a very beneficial effect on the school children, and will help them to be good citizens. On behalf of the duchess and our daughter I thank you for this kind welcome, and I now take great pleasure in dedicating this building."

The royal party next proceeded to the grounds of the central public school, where the school children, numbering some fourteen hundred, were assembled. There was a guard of honor of cadets. The children sang "The Maple Leaf," "O, Canada!" and "God Save the King," and two little maids, Misses Jean Galbraith and Louise Ball, presented the Duchess and Princess Patricia with bouquets of lilacs of the valley.

The first-mentioned is the smallest child that has yet presented flowers to Their Royal Highnesses.

The duke spoke a few words to the children and, raising his hat, called for three cheers for the King, leading in the cheering and adding, "and a tiger." The cheering was renewed again for the duke, the duchess and the princess, the children waving flags as they cheered.

Their Royal Highnesses were then taken a motor car tour about the town. Later the duchess and the princess received at the royal train Mrs. W. C. Ives, who, at the time of the duchess's illness last April occupied a room adjoining that occupied by Her Royal Highness in the Royal Victoria hospital, Montreal. Miss Pelly, lady-in-waiting to the duchess, calling on Mrs. Ives in the morning and conveying to her the invitation to call.

Last evening there was a public reception in the central public school building attended by 400 people. On their way to the reception Their Royal Highnesses were treated to the spectacle of the firing of a natural gas flame. The flame, ignited by a fireball from a Roman candle, shot up a hundred feet into the air from the top of an iron pipe forty-five feet high, illuminating the whole city.

Before returning to the train the royal party viewed the illuminations, which were notably elaborate. At a quarter past ten the royal train left for Medicine Hat.

that games were being played in the parks," said he. "Last Sunday I looked into the matter myself and I found that they were playing tennis at Kitsilano while people were going to church in the morning and at Sunday school time in the afternoon I found the same condition of affairs at Bridge street. It is against the provincial law and I was surprised when they told me that it has been going on all summer."

The parks superintendent, Mr. Balmer, stated that he had been told of the matter a couple of weeks ago and had ordered that the players should be stopped.

The board passed a resolution ordering the locking of the tennis courts on Sunday and the posting of notices prohibiting all games of any kind in the parks on Sunday.

TURKS DEFEATED BY MONTENEGRINS

**POSITION CAPTURED
AFTER SEVERE FIGHT**

Number of Officers and
Soldiers Surrender—Four
Guns Taken

Podgoritz, Montenegro, Oct. 11.—The Montenegrins have captured Deitchich mountain. The Turkish commanders and officers with many soldiers, have surrendered.

The battle between the Montenegrin forces, under command of King Nicholas, and Turkish troops, strongly entrenched in the hills, lasted 36 hours. The fight began at 8 o'clock Wednesday morning, the first shot being fired by Prince Peter. Within a few hours the Turks evacuated that district. Strongly fortified positions were occupied by the Turks, however, on Deitchich mountain, which commands the road to Scutari, and reinforcements were brought up which resulted in a general engagement along the line for several miles.

King Nicholas remained at his headquarters at Podgoritz while Crown Prince Danilo directed operations at the front. The Montenegrins resumed their bombardment at Deitchich at dawn, and a heavy cannonade was kept up until 11 o'clock in the morning, when the Turkish batteries on the mountain were silenced.

In the meantime a great battle was proceeding near the Turkish town of Tush, about 15 miles to the south of Podgoritz. At 4 o'clock in the afternoon the Turkish commander on the Deitchich, with his officers and troops, surrendered.

The Montenegrins captured four guns. The Montenegrin standard was hoisted over the captured position. There was heavy losses on both sides, but the Montenegrin camp gave itself over to rejoicings on the first victory in the war.

A division of Montenegrins, commanded by General Vukobrat, crossed the frontier early yesterday morning near Barana.

CHARGED WITH MURDER.

Two Convicts Will Be Tried at New Westminster Assizes.

New Westminster, Oct. 11.—Committed for trial at the assizes, which will be held this month, on the charge of the murder of Guard Johnson, convicts Joseph Smith and Herbert Wilson left the city police court yesterday afternoon handcuffed together and wearing leg irons.

After the fusillade of shots ended on Saturday afternoon it was found that a revolver was missing as well as the keys of the doors to the tunnel through which the prisoners had escaped. Both prisoners were searched, but the missing weapon was not found. It and the keys were found on Tuesday in the dirt at the bottom of a ventilator of the cell occupied by Wilson. It is believed that Wilson, although suffering agony, held the revolver pressed to his side by his injured right arm, and the guard did not look there, thinking he could not conceal it owing to the pain he would have to endure.

Smith asked whether trial could not be held next month or the month after. Magistrate Edmonds replied that this case would have to be taken up with the others.

Col. Roosevelt to "Unlimber

Weeks of Fight

Superior, Wis., Oct. 11.—"I probably should not make the reference to Mr. Wilson that I am going to make," said Col. Roosevelt here yesterday. "If he hadn't attacked me. But when anybody attacks me he might as well understand that I won't take it lying down. I am a man of peaceful disposition, but I think I am able to defend myself."

Col. Roosevelt stopped for an hour in Superior on his way to Minnesota. He was to spend most of the day in Duluth, and no speeches elsewhere were scheduled, save the one at Superior.

Having given more than a month to the exposition of the principles of the new party, which he believes are now well understood, he plans to take a new line of attack during the closing weeks of the campaign and "unlimber the big guns."

His speech in Houghton, in which he criticized Governor Wilson for the "sullen hostility" toward labor, which he said Mr. Wilson had displayed in the past, was the first of the series which he expected to make.

LONG DISTANCE MANAGEMENT FAILS

**B. C. LUMBER COMPANY
TO BE RECONSTRUCTED**

Canadian Directors Will Be
Selected to Take Place of
London Board

London, Oct. 11.—Sir William Flender, receiver and manager of the Dominion Sawmills, Ltd., a British Columbia Company, had an eager body of debenture-holders before him Wednesday when his scheme of reconstruction was considered again. He told of the company's acreage of merchantable standing timber, but said the margin of profit was very small. Stocks which were left over last season were badly graded.

Certain American manufacturers continued to dump lumber into Canada at low figures, but the courts now held that some classes of this were liable to an ad valorem duty. When his representative visited the undertaking last year he found disorganization and lack of proper supervision.

It was estimated that the net profits this year would be £20,000, compared with a previous loss of probably over that sum. Sir William, however, thought it unlikely that they would be able to pay more than a part of the debenture interest for a few years, and in the best interests of the company it might be advantageous to withhold any interest for a term of five years, when, by careful management, the company might be put on a sound financial basis.

Inquiries were being actively pursued in Canada to secure a body of directors there which would command confidence.

Loud applause greeted a shareholder's assertion that the late London directorate was absolutely incapable and the company's solicitor said that the futility of trying to manage a British Columbia business from London had been amply demonstrated. The scheme of reconstruction was approved unanimously.

TELEGRAMS READ IN CONSPIRACY CASE

Number of Messages Sought
by U. S. Government Have
Been Destroyed

Indianapolis, Ind., Oct. 11.—Managers of telegraph offices at Spokane, Seattle, Portland and San Francisco testified at the "dynamite conspiracy" trial yesterday that telegrams sought by the government had been destroyed.

J. B. Coggins, San Francisco, was asked to produce a telegram reading: "Clean house," and sent by Eugene A. Clancy from Boston to San Francisco. The government charges that on reading of the loss of life at the Los Angeles Times disaster, Clancy, then on a visit to Boston, decided to destroy certain evidence relative to various Pacific coast explosions.

A telegram sent by Orrie E. McManigal on March 23, 1911, from Omaha, Neb., to J. J. McNamara, Indianapolis, was produced. It read: "Kindly send me a hundred-dollar cheque to Lincoln, Neb. R. Woods."

This, according to McManigal, was agreed upon as a signal that he was ready to blow up the new courthouse at Omaha, so J. J. McNamara could instruct J. B. McNamara to blow up a plant at Columbus, Ind., the same night.

Henry Leggett, now of Denver, was alleged to have sent from Pittsburgh a telegram saying: "Can I come to headquarters? Important."

This was, according to the government's charge, a short time before Leggett appeared at the frontwork-ers' headquarters in Indianapolis with a briefcase in which nitroglycerine had been carried.

A telegraph operator at Sparks, Nev., identified a message signed "Clancy" sent from there October 26, 1910, as follows:

"J. B. McNamara, Chicago—Will arrive in Chicago Saturday 1 o'clock. Meet me there."

The message, the government charges, tends to connect Clancy with efforts to hide the Los Angeles Times dynamiter after Clancy became alarmed over the search being made on the Pacific coast.

In response to instructions from Herbert S. Hockin, one of the defendants, the government charged McManigal sent a message to L. A. Noel, Detroit, as follows:

"Sold stock at Boston, March 28, Hoboken 21."

A telegram bearing these words was produced. Explosions occurred at Boston and Hoboken on those dates.

Big Airship Destroyed by Explosion While Being Filled With Gas

Berlin, Oct. 11.—Germany's aerial fleet suffered a severe loss yesterday by the total wrecking by explosion of one of its immense military dirigibles and of the hall in which it was stationed at Reinickendorf, a suburb of Berlin. The balloon, which was of the semi-rigid type with air balloons to preserve its shape, invented by Major Gross, of the Prussian army, was being filled with hydrogen gas by soldiers of the flying corps. The gas, which is highly inflammable, was being passed into the envelope from metal cylinders when the friction of the gas-filling tube caused fire to break out.

A violent explosion ensued, completely destroying the dirigible and blowing the hall to splinters. None of the crew was injured.

WANING POPULARITY.

No better testimony to the waning popularity of the McBride administration in the province of British Columbia could be given than has been afforded by the Beaver Club in its efforts to rally a large number of the party following to a mutual admiration society gathering at the Drill Hall tonight. This monster party was to have been held some weeks ago to celebrate the defeat of reciprocity, but wiser counsels prevailed, and that celebration was enjoyed by a few of the faithful who assembled to quietly talk things over. Since that time the confounding hand of the arch artist has turned the affair into a picked and packed assembly, at which the cynosure of all eyes and the object of all thronal flattery is to be no less a personage than Sir Richard McBride. The "defeat of reciprocity" must take second place to the "unique victory of last March." The great brainstorm of September, 1911, which "saved Canada to the empire"—according to Tory logic—is secondary in its importance to the "unique" victory which saved the government of British Columbia to Sir Richard McBride. It is just as well to be frank about such things, and the frankness of the altered pen of victory is childlike and bland.

But why does it come so late? Nearly eight months have elapsed since the unique victory was achieved. The long contemplation of even a "unique" victory ordinarily gives satiety rather than inspires belated celebrations. There is a reason, and the reason is not that no earlier opportunity has been afforded to be seized and immortalized by such a celebration. The real reason is that some such celebration has been forced upon the organizations whose bounden duty—sworn obligation—it is to keep Sir Richard McBride safe from the poisoned shafts of discontent, muttered revolt and positive contumely that are being heaped upon his administration throughout, and to the four corners of the province. Coupled with the sycophantic flattery and party laudation that is to characterize the addresses at the affair to be held tonight, is the bait that Sir Richard is to make an important announcement about the future of Victoria. Always "the future" of some part of the province. Sir Richard knows the weakness of his party following in the city and is resolved to stake his popularity and grand-stand play once more upon that weakness.

Every citizen will welcome any announcement which assures the active interest of Sir Richard and his government in anything that will advance the prosperity of the city. But promises will not do this nor will specious prediction of the great future that awaits the sweet will of the autocratic powers at James Bay be likely to arouse much enthusiasm outside the banquet hall. Sir Richard's predictions and pledges to Victoria have proved one long series of falsehoods, deceptions, exaggerations and calculated misrepresentations. In the view of which a repetition of these will be nothing more than an affront to the intelligence of the electorate.

Yet Sir Richard is obliged to make them. Even his own faithful "rubber stamps" are chafing under the scorn of the public, and must be reassured. More than this, it needs that the hiring press abandon itself once more to the task of gratuitous circulation of innumerable copies of their issues with the carefully pre-arranged laudations that will be made the chief part of the celebration. The province as a whole must be made to think that Victoria believes Sir Richard is in great grace and favor with the people. The reverse is the fact. Until Sir Richard gives some better evidence of sincerity in the professed interest he has in the city, there is a large majority of the electors who will regard his placative promises of this evening as so much more of the same tenor as those with which he has so successfully duped them in the achievement of the "unique" victory of March.

And until Sir Richard directs his at-

tention to the solution of some of the many burning problems which are universally afflicting the province he will find that the celebration of this evening will add fuel to the fire of wide-spread discontent.

NOT WITHOUT RECOURSE.

The chief government organ to-day laments that a recent visitor to Victoria estimates the amount that will be sent abroad from British Columbia "next year" for foodstuffs will aggregate \$30,000,000. Moralizing on the prospect and regretting that the province is producing so little, the organ says:

"There will come some time a lull in railway construction. Some time there will be a slackening off in the demand for real estate. By and bye the investment of money in buildings will fall off. What will happen then?"

May we suggest that the outlook is not altogether black. When these dire times come upon us the government can collect the millions of dollars owing the provincial treasury for lands sold to speculators on credit. If the worst comes to the worst the amount due will keep the machinery of the province running for quite a while—provided, of course, that it can be collected.

THE C. P. R. MELON.

The action of the Canadian Pacific Railway Company in issuing \$60,000,000 of stock without having secured the sanction of the government and by taking advantage of an alleged technical right to do so has raised the question of the frequent melon cutting practices of the gigantic railway corporation to a matter of national importance. Without sharing any of the prejudices manifest in some parts of Canada, and regarding the enormous profits of the shareholders in the railway company as their good fortune, the Times has maintained that the question of railway rates in the West is one which should and must be taken up by parliament—the only body which appears to have any power to deal effectively with the grievance of the West. The application of the company for permission to issue another block of stock at much less than its market value is a matter which we had thought would be dealt with by the government in council and strictly upon its merits. The peremptory action of the company in issuing another kind of stock and alleging that a clause in their charter empowers them to do this without the consent of the government is, however, another affair. What seems to be the logical deduction from this action is that "the country is now face to face with the proposition that the government has no supervision over stock issues by the Canadian Pacific Railway Company." This is the view maintained by the Toronto World with a good show of reason, and the Toronto paper is not slow to suggest that there has been what it designates a "frame-up." It says:

"It is a fair surmise that the application was not filed without some informal discussion. No doubt an early answer was requested. Yet we are now told that the company's application never received any attention; the law was not even consulted. If the recollection of the Ottawa ministers be in accord with the facts, Sir Thomas Shaughnessy came to the Privy Council like the tramp to the kitchen door who asks for something to eat, and while the housewife hesitates, pushes past her, helps himself, locks her up in the cellar and goes away. Well, did it happen this way or was it a friendly game?"

"Is Sir Thomas defiant and is the government angry? Just how angry is the government? If nothing is done or attempted to be done the people of this country may be justified in suspecting a frame-up."

Whatever the legal rights of the company may be and whether the last issue of stocks, in defiance of or at least without the consent of the government, these rights were obtained under the statute of 1882, during the troublous times when the Conservative party in the House of Commons was led by several premiers, disorganized, threatened with dissolution and catching at straws to save itself.

"There has been much capital made by the Borden party over a clause in the contract of the Grand Trunk Railway Company which was interpreted by the Judicial Committee of the Privy Council adversely to the contention of the former government. Sir Wilfrid Laurier unhesitatingly assumed responsibility for the defect in the clause by which the intentions of the government were thwarted. But that is a small matter when compared with legislation which is found in after years to place a railway corporation completely above the authority of parliament, at least until such time as parliament again deals with the case.

What seems remarkable since the advent of the Borden government is that corporation interests, trusts and monopolies are thrusting their ugly heads from under cover with an effrontery and courage that threatens the national life of Canada. In the matter of the C. P. R. melon cutting the duty of the government is plain. It should "by injunction or otherwise prevent this mock sale of the stock at a price below its market value. It should then summon parliament im-

mediately and bring down legislation dealing with the Canadian Pacific Railway, its melons, its jokers and its rates, in the public interest." It is up to the government.

An investigation has shown that in most Ontario cheese factories the scales are not true. General sympathy will be felt for the cheese makers who have thus been robbing themselves for years.

It will be up to Parker Williams, M. P., to ask during the next session of the legislature "How much did the province pay on account of the banquet and fete to Sir Richard McBride, et al, held on October 11, 1912."

The Prairies are entitled to more House of Commons representation, which they are not to get just yet because the new members elected by the people would be Liberals; but they can have twelve new Senators, appointed by the government, who would be Conservative. Montreal Herald says: "Really, it begins to look as though a machine politician must be concealed somewhere in that Cabinet!"

The last number of The School Magazine, published for distribution among High School pupils and those of senior and intermediate grades in public schools, concludes an interesting editorial review of "The Armada" with this question: "How much do we who are English know of seamanship as a people?" It might be answered by saying of "seamanship as a people" we know precious little. "As a people" it is possible, however, that we "know something of 'seamanship.' High School cadets, intermediates and others please note the elegant syntax.

The decision of Prof. Stephen Leacock of McGill University not to enter politics in any manner that would necessitate the resignation from his place at McGill increases our respect for the learned academician. Incidentally we shall read his political lectures with considerably more interest in the future, because it is evident that, in addition to an abnormal development of the faculty of humor, the professor has the prophetic instinct. Reading the stars and other omens, Prof. Leacock has discovered that the present is an exceedingly inauspicious time to enter the political arena in support of the high tariff party.

The defeat of reciprocity must not be signalized nor celebrated in British Columbia just now, because any such celebration would mean an abridgement of Hon. R. L. Borden, who attained power by that defeat. Anything that will glorify Mr. Borden in the present critical stage of his political leadership must not happen in British Columbia. There is only one man properly glorifiable, and that is one reason why Sir Richard McBride vetoed the proposal to have a celebration of reciprocity's defeat. Our knightly premier knows how to keep in the spotlight. Sir Richard is not without the hope that if Borden goes to smash as Dominion leader there can be only one other man chosen as the party Moses. There is but one man alive who can be as wise as Sir Richard looks.

The Toronto Telegram says: "A big, bold and courageous naval policy will put the navy question out of politics, not by arrangement, but by compulsion. A non-partisan solution of the naval question can be secured by the merits of the Borden policy, and in no other way. The Borden government need not bargain with the opposition to have the dogs of party warfare tied up before the naval policy is introduced. The Borden naval policy should be of such merit that the Laurier government will have to call off its dogs for its own sake, not for the country's sake or the Borden government's sake." There is some pluck in talk of this kind. It is in refreshing contrast to the truckling, meanly-mouthed, house-top heaving of the readiness to support any policy Borden may bring forward "so long as its adequate."

BIG REALTY DEAL NEAR ATHLETIC PARK

Three and a Half Acres
Changed Hands for
\$60,000

An important real estate transaction was put through yesterday when Mr. Savary, the nursery gardener of Broad street, sold three and a half acres of nursery land to A. P. Luxton of this city. It is understood that the price was in the neighborhood of \$60,000.

The land in question is in the vicinity of Royal Athletic Park, and of course is extremely valuable property.

NEW SECRETARY

AT LOCAL Y. M. C. A.

Will in All Probability Be R. B. Jackson of Calgary—Meeting to Decide To-day

This afternoon R. B. Jackson, of Calgary, will arrive in the city and attend a board meeting of the Y. M. C. A. at 5 o'clock. Mr. Jackson has been invited here to take over the vacancy caused by the resignation of E. M. Thomasson as general secretary, but it is not yet settled whether the appointment will actually be made to-day. Mr. Jackson will come and look over the building and consider the proposition after he has attended the meeting of the directors.

Should the appointment be ratified it is quite certain that the Victoria Y. M. C. A. will have a gentleman at their head who will be a distinct acquisition to the social, educational and religious life of the Association. In Calgary he is widely known and greatly respected, and should be favorably considered the offer of the post, the Association may count themselves fortunate in acquiring the services of such a thoroughly capable and efficient secretary.

ADVICE ON HOUSEHOLD SCIENCE.

Miss Juniper Prepares Cards Conveying Useful Information.

Miss A. B. Juniper, the accomplished supervisor of the domestic science department of the Victoria schools, has just shown another proof of her initiative in the preparation of cards which show in plain unvarnished language what should be done about a home, and how to do it. Some of the advice tendered the children would be of use to their mothers, and to the unfortunate persons whom necessity compels to be dependent on others for their home comforts.

The cards might well be given a wider vogue than for the girls who take part in these classes, the instructions covering most of the important fields of domestic life.

NOTICE TO CORRESPONDENTS.

RELIGION AND SCIENCE.

To the Editor:—As an aged member of that great body of Christians which in diverse sections constitute the Church of God on earth, I desire to express the gratification which in common with all such I have read the exhaustive address of Father Bernard Vaughan as published in your columns in defence of the all-dominant truth for which we together in unity stand—namely, that the God whom we in common worship is the Maker of Heaven and earth, and the alone giver of life to all living creatures therein. I had begun myself to write an article to the same effect, the beginning of which I have by me, in which I follow the lines he takes, notably that it is the province of philosophy to search science when it has had its say, and to guide it into truths which may be it has questioned or denied. This purpose of mine I now discontinue, but I should like, if you will grant me the space, to add one or two remarks showing the scriptural harmony which subsists between those who bear this testimony. For when it is stated that the Son of God made all things at the word of the Father, and that therefore in Him was life, it is added that this was "the light of men," for without light what would life be but a succession of restless, aimless movements without purpose or will. And here I say Father Bernard Vaughan finds himself in agreement with scripture when he proves that God has placed in man a soul at whose bidding the bodily members shape man's way upon earth! This soul is man's light, not the light of the sun or a lamp, seen by the bodily eye, but by the eyes of the understanding.

Such is the harmony of all who confess the soul in man to be the light which governs man's course on earth. This refers only to the natural man, but there is another life and another light which appertains to men at their second birth, which is also from Christ, the author and finisher of our faith, therefore, I say no more than that which is necessary to guard us from thinking that the natural life contains and can teach the truth needful for the salvation of mankind.

EDWARD CRIDGE.

Marfield, Oct. 11, 1912.

New Serviceable and Cozy Clothing For Your Children, and the Best Costs the Least in the Long Run

"PUT another blanket on May's cot, she was cold last night." That is the way many women try to make their children comfortable, but the weight of the bed clothes press too hard on the child and its sleep is spoiled. The child has to exert energy to support the weight, and as a result, it wakes up feeling tired and cross. What is wanted is light and warm clothing and bedding, and there is no class of garment so full of satisfaction as those made of fleecy flannelette. They are light, velvety to the touch, warm as toast, inexpensive and wear like leather. They solve the cold night problem as no other garment can.

NIGHT DRESSES, made of a soft and fleecy flannelette are to be had in sizes for children from 6 to 10 years old. They come in a pink flannelette, have a plain square yoke, and are finished at the neck and cuffs with a neat frill. Price 50¢

NIGHT DRESSES of the same grade and description as those mentioned above but made in sizes for children from 12 to 16 years old are marked at only 65¢

BETTER QUALITY OF NIGHT DRESSES are to be had in either pink or white flannelette, and good ones they are, too. They are made with a square yoke finished with tuckings and handsome embroidery, frills at the neck and cuffs, and come in sizes from 6 to 16 years old. Price, per garment 75¢

PYJAMAS, made of good flannelette are to be had in a choice assortment of colored stripes. They are made in sizes for children from 4 to 12 years old and are neatly finished with braid trimmings. Two grades are to be had in this line. One is marked at \$1.50 and the other is a bargain at \$1.25

SLEEPERS are to be had in either white or pink flannelette and are so well made, designed for comfort, and so inexpensive that they should command much attention. The legs are finished with coverings for the feet. Plain, but good. Price, per garment, only 65¢

CHILDREN'S PETTICOATS come in sizes for children 2, 4 and 6 years old. They are made of a good white flannelette and are finished with an embroidered flounce, neatly tucked. Price, per garment 50¢

Dainty Shawls for Special Occasions

AND MANY SERVICEABLE STYLES FOR EVERY DAY USE ARE INCLUDED IN A LARGE SHIPMENT THAT HAS JUST COME TO HAND

MORE than a dozen different grades are here to choose from and all are made of pure wool and come in very pleasing patterns. All are finished with a wide fringe on all sides; some have plain centres and others come in the honeycomb style. Many of the borders are very elaborately designed and in the better lines they have a neat pattern worked in silk. Colors white, grey, cardinal and black are to be had. Whether you want a shawl for special occasions such as a dance, party, etc., or want one to wear at any and all times, you'll find one here that will meet with your requirements. Prices start at 75¢ each and rise gradually, according to quality, up to \$4.50

\$12.90 Dinner Sets for \$9.75

A SPECIALLY GOOD VALUE THAT SHOULD RAPIDLY SELL

HERE is a really good line of English Semi-Force Plain Dinner Sets of 97 pieces that comes in four different patterns. Three of them have white grounds and beautiful floral patterns in colors, and one has a white ground and a neat decoration in dark pink. There are not many of them to be sold, so early shopping is necessary if you want to be sure of securing one of them.

The sets consist of 1 dozen each of 5, 6 and 8 inch plates, 1 dozen of soup plates, 1 dozen fruit plates, 2 platters, 2 covered vegetable dishes, 1 sauce boat, 1 tea pot, 1 covered sugar box, 1 stop bowl and 1 dozen cups and saucers.

Now is the Time to Prepare for Cold Nights

AND THE STAPLE DEPARTMENT IS PREPARED TO SUPPLY YOUR WANTS

MONEY invested in blankets, flannelette sheets, and comforters of sterling quality, is money well spent. Bedding that gives the greatest satisfaction is that which has the greatest warmth with the least weight, and that's just the reason why the best is the cheapest in the long run.

Heavy bedding is detrimental to your rest, the muscles are constantly strained to support the weight, and you wake up less refreshed than you should be. Good blankets, appropriate sheetings and light but warm comforters have the opposite and more desirable effect, give you perfect comfort and rest.

In purchasing our stock we took all these facts into consideration and have secured a fine line that we are confident will meet all requirements and give you entire satisfaction.

WHITE WOOL BLANKETS—Here are three different classes that are divided into various grades, so you have a nice range to choose from. They range from the light weight cotton mixture up to the thick and fleecy all-wool lines that are so desirable. Compare the qualities we are now offering with any that you have seen marked at similar prices in the past. Light weight grades range from \$5.00 a pair down to \$3.00; medium grades range from \$7.50 down to \$5.00; soft and fleecy all-wool blankets range from \$10 a pair down to \$5.00

FLANNELETTE SHEETS—That this line is selling a ready sale is not the slightest wonder. So soft, pleasant to the touch, light but warm are qualities that should make this line popular even if the prices were much higher. Here are some fine values well worth investigating. Crib size comes at, per pair, 75¢ and 50¢; 10-4 size at \$1.25; 11-4 size at \$1.50, and the 12-4 size is a bargain at \$1.55

WOOL FILLED COMFORTERS—Quite a variety of cosy comforters are now waiting for your inspection, and as the prices are moderate, they should prove a temptation to even the most economical woman to add one or more of them to her stock of bedding. They come in beautiful silkline, saten or muslin covers and are filled with fluffy sanitary filling. Choice colorings and designs are here and the prices range from \$4.00 down to \$1.75

PILLOW CASES—Your choice from plain or hem-stitched styles here in a variety of qualities. There is a plain hemmed pillow case made from a strong but soft cotton that runs at \$2 a dozen, and a superior line that comes in either the plain or the hem-stitched finish that is a splendid value at \$2.50. Better lines made from a good English cambric are marked at only \$3.00 a dozen, and at \$4 there is a very desirable line made of a heavy white cotton that is free from dressing.

A SPECIAL VALUE IN BLEACHED SHEETS—Only 25 pairs are to be sold at this price. They are well finished, a durable quality and are worth \$1.50 a pair. Our special for to-day \$1.35

Attractive and Serviceable Buggy Covers

ARE now being shown in the Children's department on the first floor. They are a new line that should be of great interest to all mothers who pride themselves in making baby as comfortable and as attractive as possible. A thick and rich bearskin mounted on white cloth are the materials and the edges are neatly scalloped. We invite your inspection. Prices \$2.00 and \$2.50

School Penants for Boys and Girls

HERE is a special line that should sell rapidly. They are made of the best flannel, have the Victoria coat of arms stamped on, and all schools are well represented in the school's own colors. This should be welcome news for many boys and girls. Price, each 65¢

Boosting by Articles.—Ernest McGaffey, secretary of the Vancouver Island Development League, had a visitor from Montreal in the person of W. J. Cameron, of the Montreal financial Times. As a result of his visit to the league office, Mr. McGaffey will write a couple of two-column articles for the Montreal paper the first on "Victoria" and the second on Vancouver Island.

Laundry Workers' Conditions.—Caroline Nelson, of San Francisco, the woman organizer, who addressed an enthusiastic meeting in the city on Sunday, will, it is understood, be invited to return to the city to organize among the women workers. Notably among those to whom it is proposed to turn attention are the laundry workers.

Laundry Machines.—Sealed tenders, superscribed "Tender for Laundry Machines, Mental Hospital, Coquitlam," will be received by the hon. the minister of public works up to 12 o'clock noon of Tuesday, the 29th day of October, 1912, for the supplying and erecting of laundry and kitchen machines and fittings at the Mental Hospital, Coquitlam. Plans, specifications, contract, and forms of tender may be seen at the offices of H. S. Griffith, architect, Dominion Trust Buildings, Vancouver; the government agent, New Westminster; and the department of public works, parliament buildings, Victoria.

High Barometers.—Seldom has there been known a year in which the weather conditions throughout the Dominion in the middle of October have been so excellent as at the present time. High barometers are universal, and especially is this so over the Pacific coast provinces, where the pressure is abnormally high. In Alberta, very light frosts have been recorded, but everywhere else fine and moderately warm weather prevails. The present conditions here are likely to last over the next twenty-four hours.

Courts of Revision.—Courts of revision in connection with the voters' lists are announced in the current issue of the B. C. Gazette as follows: Saanich at the residence of William Graham, Tennyson avenue on November 4 at 11 a. m.; Alberni, at the court house, Alberni, November 18, at 10 a. m.; Greenwood, at court house, Greenwood, November 4 at 10 a. m.; Slocan, at the record office, New Denver, November 4 at 10 a. m.; Nanaimo, at court house, Nanaimo, November 18 at 10 a. m.; Columbia, at court house, Golden, November 18 at 10 a. m.

For Debating Societies.—In response to the appeals of various debating bodies in the city, Miss Stewart, librarian at the Carnegie, has secured a special set of books for the use of all interested in this most important branch of education. The series contain all the pros and cons of several important subjects which are suitable for wide discussion, and among them the following topics are exhaustively dealt with: Woman's Suffrage, Income Tax, Capital Punishment, Municipal Ownership, Central Bank of United States, Initiative and Referendum, Child Labor. In addition to these, five other books on "How to Speak," etc., make a very complete set for any debating class. Altogether about two hundred books have been placed on the shelves this week, and with a similar number last week, the library is assuming a more representative character.

TWENTY-FIVE YEARS AGO TO-DAY

Times, Tuesday, October 11, 1887.

The attempt is being made to organize a local company for the purpose of prosecuting the fishing, sealing and whaling business, with headquarters in this city. The capital stock will be \$150,000 in \$1.00 shares. The sum of \$45,000 has been set apart for the purchase of the schooners Sapphire, Champion, Teresa, Arannah, and the Juanita. The prospectus predicts a 30 per cent. dividend. It is proposed to catch at least 9,000 skins.

Johnston.—On the 11th inst., at the residence of D. Driscoll, Esq., the wife of S. N. Johnston of a daughter, weighing eight pounds and all well.

Mr. T. W. Fletcher was summoned in the police court to-day for allowing packing cases to obstruct the sidewalk. Mr. Fletcher said he received the cases on Saturday afternoon and cleared them away by Monday morning. They contained organs. Supt. Bloomfield informed his worship that if some penalty were not imposed the sidewalks throughout the city would be literally covered with packing cases. The complaint was dismissed on payment by Mr. Fletcher of \$2.00 costs.

Capt. Krone was a passenger yesterday by the Mexico from San Francisco. He comes here to make arrangements for floating the Arambella. He superintended the raising and floating of the Umatilla in Esquimalt harbor in 1884.

The nineteenth annual exhibition of the Saanich Agricultural Society will be held on the grounds, South Saanich, on Thursday next.

New Secretary.—It is confidently expected that the new general secretary of the Y. M. C. A. will arrive in the city within the next few days. Mr. Sayre, the peripatetic secretary of the association who is at present in charge here will not divulge the name of the newcomer, but that a successor has been determined upon there is little room for doubt.

Harvest Festival at Cedar Hill.—Ven. Archdeacon Colclough, of the Cathedral diocese, preached to a large congregation at St. Luke's church, Cedar Hill, last evening, on the occasion of the annual harvest festival service, selecting as his text, "How say ye that the harvest is not yet?—Lift your eyes to the fields which are already white to harvest" (St. John, II, 19). The collection taken is to be devoted to the Missionary Society funds in the usual way. The anthem, "The Eyes of All Wait Upon Thee, O Lord," was sung by the choir, and the hymns, "We Plough the Fields and Scatter," and "Now Thank We All Our God." Following the service the gathering adjourned to the church hall, where refreshments were served and a social hour spent.

READY FOR THE BAZAAR.

Attractive Events to Be Held at Aged Ladies' Home.

Numbers of sympathetic ladies have given their assistance in promoting the success of the arrangements for the bazaar which is to be opened next Tuesday afternoon at the Aged Ladies' Home, and not only have numerous active helpers been found to assist at the various stalls during the two days, but numbers of liberal contributors have helped by sending in articles for sale. The bazaar will be opened at 2 o'clock on Tuesday, and Sir Richard and Lady McBride have signified their intention of being present, while invitations have been issued to the Lieutenant-Governor and Mrs. Patterson, and to the cabinet ministers and their wives. A fancy and plain-sewing table, in charge of Mrs. Simon Lelzer, will be one of the well-equipped stalls at the bazaar, while the St. Andrew's Presbyterian ladies will vend candles during the afternoon and evening of the second day, and a well-stocked fishpond, in charge of the Baxter Hive, Ladies of the Macabees, will make one of the popular side-attractions for little folks. Music will be provided on both evenings, and will add to the attractions, both for the visitor and for the aged ladies who get so few opportunities for hearing concerts in the home. Miss Thain's orchestra providing the Tuesday evening concert and Mr. Plowright's Cadet Band providing the Wednesday evening programme.

"BABY MINE."

Laughable Comedy Well Appreciated at Victoria Theatre—A Farcical Masterpiece.

No comedy ever made a greater hit with a Victoria audience than did "Baby Mine," Margaret Mayo's farcical masterpiece which was presented on the local boards last evening. Amid uproarious merriment from first to last, what has been described as "the funniest play in the English language" went on to its laughable "denouement."

The plot of the farce, which was evolved from a newspaper item which appeared in the New York Times about two years ago, hinges upon the anxiety of a childless wife to secure some sort of offspring for her husband, who has quarrelled with and left her, because she declines to become a mother. To retain her husband's regard, she hits upon the idea of importing babies from outside and from first to last the project is attended with unlooked for consequences. Alfred Hardy, the husband, is in truth, easily deluded but the parents of the stolen children refuse to be easily appeased, and Jimmy Jinks, who adopts the enforced and (to him) highly distasteful role of baby-snatcher comes in for more than his share of the hard knocks.

A delightful comedy in which the humor was extracted not so much from the dialogue as from the situation. "Baby Mine" made a tremendous hit last evening, and all the members of a very efficient company were called time and time again. Jimmy Bliss, as the unfortunate scape-goat, was the favorite, while Marjorie Cortland as Zola, the wife, played a difficult part with consummate skill and comeliness. The other members of the company also did well, and Victorians will look for an early return of this sparkling comedy.

ST. BARNABAS HARVEST.

Festival Services Were Held Last Evening—Church Prettily Decorated.

St. Barnabas church was prettily decorated last evening with sheaves of wheat, apples and chrysanthemums on altar and rood screen when the Harvest Festival services were held. Rev. C. A. Seager, principal of St. Mark's Theological college, Vancouver, preaching the sermon before a large congregation. Choosing as his text from the book of Isaiah, "O House of Israel, come ye, let us walk in the light of the Lord," the preacher pointed out how every harvest festival was a testimony to God, and they were met together, not merely to thank Him for the bountiful harvest but in order to worship the Giver. The choirmaster, Mr. Longfield, presided at the organ, and the anthem, "When Thou Gatherest in Thy Corn," was given, the two hymns, "Come Ye Thankful People, Come," and "We Plough the Fields and Scatter," being sung. Ven. Archdeacon Scriven and Rev. Mr. Solly, of Sumnerland, read the lessons, and the collection taken was devoted towards the funds of the Missionary Society of the Canadian church, a social gathering taking place in the schoolroom of the church at the conclusion of the services.

Fits Right Into the Family Circle

It is really remarkable how quickly the COLUMBIA GRAPHOPHONE becomes "one of the family." Two days after one enters a home for the first time every member of the family, from baby to grandfather, wonders how this splendid, almost human, companion could have been left out so long.

And, indeed, it is to be wondered at that families that have no COLUMBIA can go on missing the great pleasure and educational profit of its presence. It cannot be on the score of expense, because it costs little or nothing to keep a COLUMBIA up, and the low prices and extra easy terms that we allow on all styles of these machines makes the buying of them a small matter.

You cannot make the acquaintance of the Columbia under better auspices than by ordering one of the new cabinet models, as shown in the illustration. Get this fine Grafonola now and enjoy this winter as you never enjoyed a winter. This machine is a masterpiece, has all of the big features of a \$250 Grafonola, is finished in oak or mahogany, has large sound chambers, ensuring rich, full tone; double spring motor and latest and best reproducer and record album compartment for 60 double-disc records.

TORONTO'S RUGBY

PROSPECTS BRIGHT

Queen City Pigskin Chasers Expect to Win All Three Eastern Titles This Fall

Toronto, Oct. 11.—The prospects for the senior rugby clubs in Toronto appear to be very bright at present. Of course varsity, with their wealth of material, look like the best bet in the intercollegiate series again this year. While the students have lost Ramsay and Green from their back division, they still have Maynard, and with Ginter, the St. Michael's star half back, and Curzon, Brock, Webster, Frith and McKenzie to choose from should be just as strong behind the line. Charlie Gago should strengthen the team when he gets in shape. Taking the team all around they look better even than last year, and Father Stanton, of Ottawa, and Frank O'Shaughnessy, of McGill, will have to unearth some wonders in order to take the measure of the blue and white boys.

Argonauts Look Good.
The Argonauts of the "Big Four" are going along well in practice. Dr. Smirle Lawson, the great plunging half back, is expected to join the squad, and will certainly improve the scullers' chances. Kelly, of Montreal, is showing up well on the half back line, and "Bill" Jarvis is doing nicely at quarter back. The Argonauts have called off their game with Hamilton on Saturday to devote the afternoon to signal practice. There is no doubt they will miss the booting of Mallett, of last year's team, but should be able to give a good account of themselves nevertheless.

O. R. F. U. Teams Strong.
There is no doubt that an amalgamation between Parkdale and the Toronto Rugby Club would give one of the strongest teams that has ever represented the city in the O. R. F. U. series, but it is not likely that the two teams will get together. Parkdale, with Hughie Gall in charge, are bound to be in the limelight, and Gall is sure to round out a great team.

EXCITING SEMI-FINAL.
Toronto, Oct. 11.—The semi-finals in the championship match of Canadian ladies' golf tournament furnished an interesting contest yesterday between Miss Dorothy Campbell, of Hamilton, present champion, and Miss Nesbitt, of Toronto, winner two years ago. After more than three hours of excitement and close play with first one and then the other leading, Miss Campbell won on the twentieth hole by one point.

WALKER A WINNER.

Vancouver, B. C., Oct. 10.—George Walker, former amateur middleweight champion wrestler of Canada, won his first professional match last night when he tossed Peter Buzukos, an aspirant to the world's lightweight title, in straight falls at the Dominion hall. He took the first fall in 40 minutes 45 seconds and the third in 10 minutes 40 seconds.

COAST CLUBS ALSO AFTER THIS PLAYER

Canadiens and Lester Patrick Bidding for the Services of Jack Fournier, of Ottawa

Ottawa, Oct. 11.—There is unusual activity in the hockey market for this period of the year, with Ottawa pretty well in the line of focus. It is learned on reliable authority George Kennedy, of the Canadian club, has tendered Jack Fournier, the well known hockey leaguer, a contract, and to report at first practice. Fournier is a defence man of the speed type, and in addition to being a finished stick-handler carries a vicious shot from either side.

Lester Patrick, who is now in the East, has tendered Fournier an offer and may succeed in bringing the Ottawa youngster to the Coast. Along with Ernie Johnson or Frank Patrick, he would soon develop into a star.

REMARKED ON THE SIDE.

The more that one dopes out the world's series prospects, the more difficult does the task of picking a winner become. In the three games that have been played, the teams are even up as regards the number of runs scored, and while the Giants have the edge in batting, the superior fielding of the Red Sox discounts the better slugging abilities of McGraw's band. It appears a toss-up, though in the writer's opinion, McGraw himself will be the winning "hero" who will turn the tide in New York's favor.

McGraw Has Right Dope.
When the Little Napoleon assigned Jeff Tesreau for mound duty the first day, the critics were amazed, because of the fact that such a green, untied twirler should be sent against Joe Wood, the premier hurler on Jake Stahl's staff. However, McGraw's confidence, showing and with the breaks in luck, the bear hunter would have walked off with the contest. On Wednesday, poor fielding by Fletcher, threw the game away, when "Big Six" Mathewson was going in his best form. In that game, it was demonstrated that Ray Collins was no terror for the National League champions.

Rube Deserves Credit.
Rube Marquard's win at the Hub yesterday afternoon shows that the great South Paw has returned to the form that enabled him to set a world's record. Marquard was practically invincible, scattering the seven hits that the Red Sox did secure over the full route. He had blinding speed and did not waver for an instant. The vaunted speed of the Giants on the chalk lines was brought to the front, and though several were cut down attempting to purloin the middle station, the success of the Giants helped things along. It also means that the National Leaguers have cut loose and will be more prominent in this department from now on.

Weak in the Box.

Jake Stahl appears to have only one boxman who can stop the Giants, and Joe Wood appears to be the salvation of the Red Sox. Collins went along smooth for three-quarters of the journey, but blew up, while O'Brien also was bercked to make room for a pinch hitter. The latter was unsteady, and was unable to prevent the Giants from slugging the pill with men on the racks. Bedient and Pape do not appear experienced enough, though in Hall the Red Sox have another high class twirler. The latter will in all probability be worked this week, while McGraw may send Leon Ames and George Witte, the veteran South Paw, against the Boston club. The success of Marquard against the Hub Town club justifies giving Witte a trial.

Herzog Also Starring.

Hughie Jennings appears about right in his prophecy that Red Murray would be a hero in the series. The auburn haired outfielder is covering an acre of territory, while his batting continues timely. Murray, McGraw contended, was a star, and it looks as if both Jennings and McGraw have doped the series out right in their choice of Red Murray. Herzog, the Giants third sacker, is proving another Baker, he being the leading hitter of the series. Fletcher, the goat of the series, may yet come through and redeem himself for tossing away Wednesday's contest.

SWIMMING MEETING.

A meeting of the Swimming and Life-Saving Club of the Y. M. C. A. will be held on October 15, at 7.30, in connection with the Canadian championships.

You Might Search the World Over to Find Better Garments for Boys Than "Proper Clothes"

And your quest would be in vain. They are meant to stand the hard wear that boys' clothes are subjected to, and they are meant to have style and character distinctly suited to boys.

There is a complete variety of fine clay worsteds and blue serges, also blue rough serges in two-piece single and double-breasted styles, with knickerbocker, roomy (sort of semi-peg) trousers. Our showing of boys' clothes also includes Scotch tweeds and fancy worsteds.

LITTLE BITS OF SPORT GOSSIP

President Lichtenhein, of the Wanderers, says the Toronto Arena was put up and is owned by Montreal capital, and that it will be Montreal people who will say who can and who can not get the dates there.

Arthur Devlin of the Boston Braves has turned down the suggestion that he manage the Sacramento team next year and the list of possibilities now seems to have narrowed down to Doc White and Billy Sullivan of the Chicago White Sox, either one of whom can have the job if he will take it.

Joe Birmingham, who managed the Cleveland Americans during the fag end of the season just closed, signed a contract as manager for 1913.

The "Black Wonder," Uhlan, was out for an effort to lower the track record for trotting, 1.59.1-2. The track was in excellent condition and the son of Bingen made the circuit in 1.58 flat. This breaks the world's record for a trotter, which heretofore was held by

Lou Dillon. Uhlan was driven by his trainer, Charles Tanner.

Manager Johnny Kifing, of the Boston Nationals, in a letter to newspaper friends in Boston, announces his retirement from baseball. He states that he is satisfied, after vainly seeking for a conference with President Gaffney, of the Boston club for over a week, that the rumors of George Stallings being his successor are true.

The passing of Danny Murphy, veteran outfielder of the Athletics, who announced his retirement from baseball at the end of the season, will remove a star who has won many friends by his consistent playing and all-around sportsmanship.

Larry McLean, former catcher of the Cincinnati Reds, is in St. Louis and probably will sign with the Browns. Owner Hedges says he will give the big fellow a chance and Larry is anxious to make good. He should be the backbone of the new team Stovall is assembling for next year.

Pete Schneider, the Seattle pitcher, has a unique record for the year. As

relief pitcher, Schneider was called upon twenty times, while he was taken out but three times. Eleven times he was called off the bench as pinch hitter. Three times he drew a base on balls and four times he delivered a hit.

Pitchers Concannon and Gordon were the travelling boys. They wore six different uniforms during the season, the home and road suits of three different clubs. Concannon went from Victoria to Seattle, thence to Tacoma, thence to Spokane.

Matty McIntyre had been in the league less than one week when he was plastered with a fine. Matty objected to a strike called by Wheeler and stepped on the plate while he carried on a low-pitched argument with his Ump. Wheeler soaked him \$5 for standing on the plate. "What do I care about five?" replied Matty with an air like a Rockefeller.

By the sale of players the Northwestern League managers profited \$35,000 on 29 deals. Seattle leading with \$10,000, Portland next with \$9,500, Spokane third with \$8,400, Tacoma \$3,000, Van-

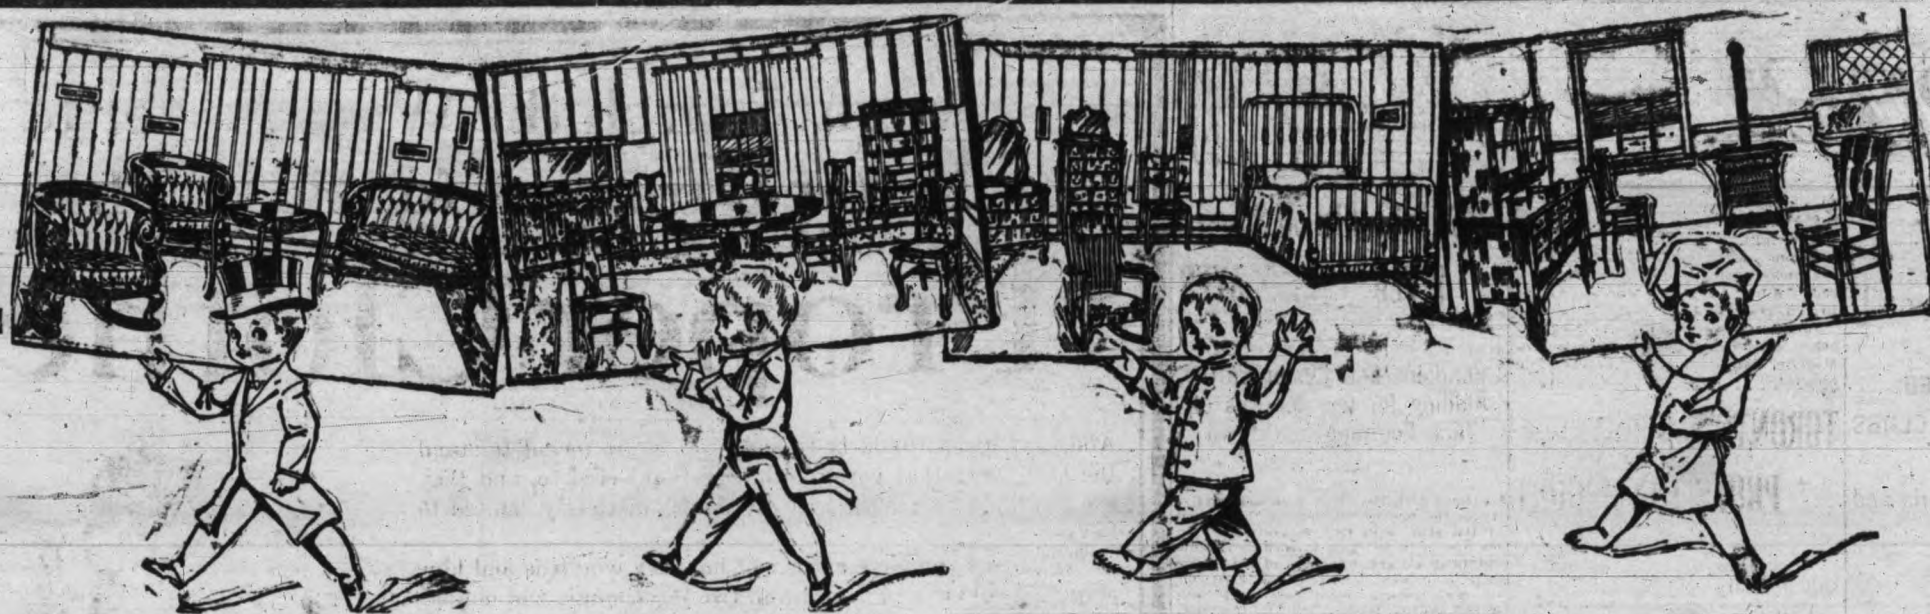

couver \$2,800, while Victoria did not make a deal from which pecuniary profit of any consequence was derived. Of course much of the money will be paid in players. For instance, Portland has due approximately \$5,000 that will come in this way.

Vancouver boxers are excited over charges of professionalism against one of the Terminal City clubs. A special committee appointed by the B. C. A. U. are investigating the case.

W. L. Howell, of Chemainus, B. C., is out with a challenge to Frank Barriau on behalf of his protégé, Johnny Myran. He wants a match of fifteen to twenty rounds at 155 lbs. for a side bet.

Pat Brown and Dick Hyland have been matched to fight at Calgary on Thanksgiving Day. This will not be the only match for Thanksgiving Day, as Promoter Tommy Burns has got two men who will box for the world's championship. The men are Jimmy Walsh and Young Togo, who will meet for the bantam weight title of the world.

AUSTRALIAN LINERS TO COAL ON SOUND

Agent Making Arrangements
to Get Bunkers at Seattle
—Strike is Proving Bad

Owing to the miners' strikes at Nanaimo and other east coast coal fields several of the steamship companies operating steamships to this port have been forced to seek new places at which their vessels can bunker. The Canadian-Australian line is unable to get a supply from the Vancouver Island mines, and J. C. Irons, general agent of the company, is now in Seattle contracting for a season's coal.

It was with great difficulty that sufficient coal could be secured to fill the bunkers of the Australian liner Zealandia. Generally these vessels are bunkered at Union Bay in two or three days, but the Zealandia was all of two weeks getting her coal aboard. She was delayed twelve hours in leaving here for the south. It is not known whether by the new contract the Canadian-Australian liners will be piloted to Seattle and bunker, or whether the coal will be brought to Vancouver, where the vessels lie, in scows or barges.

The coal strike is proving detrimental to shipping, and steamship men are hoping that an amicable settlement will be brought about very soon. All the big freighters, after loading their cargoes at Portland, and most of the British vessels loading on the Sound formerly took coal on at Sohom, Nanaimo or Union Bay. Now, however, the vessels have to bunker at either Tacoma or Seattle, and as the supplies at these ports are somewhat limited some difficulty may be experienced very shortly, provided the strikes here are not settled in furnishing all the boats with coal.

**LAUNCH NEW COASTING
STEAMER AT 'FRISCO**

San Francisco, Oct. 11.—The new steamer Paraiso, built for Swayne & Hoyt at Craig's Long Beach yards was successfully launched to-day. As soon as she is completed the steamer will operate between Portland and San Francisco, bringing cargoes for the American-Hawaiian S. S. Co., which has withdrawn its vessels from the Columbia river service. Atlantic cargoes from the river will be trans-shipped here, and the steamers formerly stopping at Portland will proceed to Puget Sound ports.

Under charter to Hind, Ralph & Co., the British steamer Strathdene steamed to-day for Portland to load lumber for the government. The steamer Olson and Mahoney from Tacoma, and the steamer Wellington from the North arrived here last night.

The little steamer Kitima arrived to-day from Honolulu, and will go to the Union Iron Works for about \$10,000 worth of repairs.

FLEET OF SHIPS ON WAY TO COAST LARGE

Several Sallers Coming to Victoria—Many Bound for Sound and to 'Frisco

At the present time there is an extra large fleet of windjammers bound from different parts of the globe to Victoria, Puget Sound, Portland and San Francisco. Some have said that the white-winged vessels were disappearing from the seas, but a glance at a shipping guide makes it appear as though more ships are heading this way than ever before. The reason for so many sailers coming to North Pacific ports is that the grain season has started. Thousands of tons of wheat and flour will be sent around the Horn to the United Kingdom in sailing vessels this year. The lumber business is also attracting quite a number this way.

British Columbia ports, of course, have no grain to ship and all vessels bound here are after lumber. The British schooner David Evans, Captain Saunders, is 41 days out to-day from Japan, and should be putting in an appearance here very soon. She is to load lumber at Hastings Mills, Vancouver. The Norwegian barque Lady Elizabeth, which will load lumber at Vancouver, is 60 days out to-day from Los Vilos, South America. The British ship Claverdon, which has a cargo of cement and general freight from London for R. V. Winch & Co., is 69 days out from London. The American barquentine Alta, which is coming here from Melbourne to load lumber, is 12 days out.

There are a number of sailers at present at Sound ports loading lumber and grain cargoes. The American ship Acme, 114 days out from Baltimore, is expected in almost any time, and the British ship Bay of Biscay is on her way up the coast from Callao.

Bound for the Columbia river are the following windjammers: German ship Osea, formerly the Italian ship S. Margherita, from Antwerp; German barque Henriette, from Antofagasta; British barque Metropolis, 62 days out from Buenos Aires; British ships Boadicea and Colony, and the British barque Inverclyde, also from Buenos Aires; the British barque Altair, 48 days out from Callao; Norwegian barque Valerie, 49 days from Capetown, South Africa; Russian ship Marfchenko, from Cardiff; French barque Rene, 70 days from Dunkirk; Russian ship Clan Macfarlane, 62 days from Gatico; German barque R. C. Rickmers, from Hogo; German ship Elfrida, 34 days, and British barque Hougomont, 30 days from Iquique; German barque Osterbeck, 25 days, and British barque Iverna, from Montevideo; French ship Rene Kerviler, 63 days from Newcastle, N. S. W.; French ship Thiers, 104 days, and French barque General de Negrier, 66 days from Newcastle-on-Tyne; German ship Terpelchore, 56 days, and British barque Killoran, 46 days from Rio de Janeiro; German barques Ellibek, Jersebek, Adelaide, Isbek and Goldbek, from Santa Rosalia; French barque Marechal de Villars, 41 days, and Russian barque Dundee, from Santos; British ship Owenee, 49 days from Taitai.

Outside of the regular fleet of schooners engaging in the coastal and Australian trade and the ships running between Boston, New York and Baltimore, the following windjammers are bound for San Francisco: French ship Ernest Royer, 127 days, and French barque Bonchamp, 122 days from Antwerp; British barque Anne de Bretagne, 139 days from Hamburg; French ship Admiral Cecilie, 163 days, and French barque Bayard, 90 days; Duc d'Aumale, 98 days, and Bourbaki, 98 days from Rotterdam; British barque Lord Templeton, 43 days; British barque British Yemama, 22 days; British ship "Drumhead"; French barque Battle Abbey and British ship Dunysre from Newcastle, Australia.

The C. P. R. steamer Princess Sophia, Capt. Campbell, gets away to-night for Prince Rupert and Skagway. She is taking out a number of passengers and will also have some cargo.

The British steamship Achilster arrived at Astoria Wednesday from Guaymas. The vessel will load on the Sound under charter to J. J. Moore & Co.

GREAT SEAS SWEEP DECK OF UMATILLA

Make Slow Trip of 68 Hours
From San Francisco—Very
Few Passengers Aboard

Sixty-eight hours out from the Golden Gate, the slowest time made by a 'Frisco boat for a couple of years, the Pacific Coast steamship Umatilla, Capt. Reilly, docked here at 10 o'clock this morning. Strong northerly gales and heavy seas held the Umatilla back. At times she was forced to go almost dead slow as the big seas broke over her bow and flooded her decks. Off Cape Blanco the blow was extremely strong and the ship had to be nursed carefully through the high seas.

Several slow trips have been logged by the 'Frisco steamships lately, and some time has passed since one has arrived here before midnight on Thursday. With the approach of winter the Umatilla and City of Puebla have both been coming in later each trip. The arrival of the Umatilla this morning was the latest known for a long time.

The Umatilla had a large cargo but her passenger list was the lightest brought north this fall. There were but 68 passengers in the first and second cabins, 23 of which number disembarked here. The cargo for Victoria amounted to 410 tons and the Umatilla did not get away for the Sound until late this afternoon.

The passengers who disembarked at this port included the following: Miss C. Peterson, G. Leitch, H. F. Byram, J. A. Ingle, Agnes Malone, R. A. Hood, J. Johns, Robt. Bett, D. Ison, H. J. Mills, Mrs. Barrow, F. Flewin, L. H. Dougherty and wife, Minnie O'Brien, Valeril Brown, Esther Culbertson, E. Gillenwatter, C. Cunniff and Elizabeth McFarland, Miss E. Culbertson, Ruth Culbertson.

NOTORIOUS SMUGGLER CAUGHT NEAR 'FRISCO

San Francisco, Oct. 11.—The United States revenue cutter Golden Gate, acting on information supplied by Charles A. Stephens, deputy surveyor of the port of San Francisco, yesterday steamed thirty miles north and picked up the gasoline sloop Alert, owned and commanded by John Osterhuis, who for months has been under surveillance by government officials, suspected of smuggling Chinese.

The craft, which is the notorious smuggling sloop Neptune, was brought to San Francisco, and Osterhuis, with Andrew Basile, an Italian youth whom he carried as crew, are held in the city prison pending arraignment before a federal commissioner on charges of having engaged in a smuggling conspiracy.

Stephens declared the capture of Osterhuis to be the most important made since the recent renewal of the government's warfare against the traffic in contraband Chinese.

Osterhuis said he came north from San Diego to fish for cod, but there was nothing aboard the sloop to verify this assertion. To the contrary, Stephens said that he had information that when the sloop departed from San Diego it went to Ensenada, Mexico.

It is the belief of Stephens that the sloop brought to San Francisco about twenty of a consignment of Chinese, others of which were landed here by the launch Samson No. 2, which eluded capture last Monday.

British and German South American shipping interests are holding protracted conferences at Berlin in reference to rates by way of Panama canal.

SHIDZUOKA TO DOCK EARLY IN AFTERNOON

Japanese Liner Expected About
3 o'clock To-morrow—Pro-
testilus Leaves Port

According to the latest advice received by the local agents of the Nippon Yusen Kaisha, the new steamship Shidzuoka Maru, Capt. Iriawa, will dock here between 2 and 3 o'clock to-morrow afternoon. At 7.45 o'clock last night Capt. Iriawa sent a wireless giving the position of his vessel as latitude 49.10 north and longitude 136 west. As the vessel is late she is being driven harder than usual and shipping men figure that she should be in early to-morrow afternoon.

It has been announced that the Shidzuoka will be three days late in sailing from here, the date of her departure having been changed to October 25. The Maru is three days late arriving from the Orient owing to a collision in the China Sea. So much cargo will be handled by the Shidzuoka during her stay on the Sound that it has been figured impossible to get her away on schedule time.

After discharging 1,800 tons of general freight at this port the Blue Funnel liner Protestilus, Capt. Milnech, left about noon to-day for Vancouver, for which port she has about 4,000 tons. The Protestilus will be back here next week to take on a large shipment of whale oil and also considerable salmon.

Yesterday afternoon the Grace steamship Cuzco, Capt. Miller, was piloted out of the harbor and proceeded to Deception Bay to discharge 1,200 tons of nitrate. The Cuzco was in port since Sunday and put off here 1,600 tons of cargo, consigned to the Victoria Chemical Works. From Deception Bay the Cuzco will shift to Seattle and Tacoma to load another cargo for the west coast of South America.

NAUTICAL ASSESSORS MATTER HOLDS FIRE

Communication From Mer-
chant Service Guild is Re-
ferred to Another Minister

Nothing definite has yet been done by the federal authorities in connection with the case of the nautical assessors of this province. Word was received by Capt. Jarvis, secretary of the Merchant Service Guild of British Columbia, a few days ago stating that the minister of justice had turned the matter over to the minister of marine and fisheries. The case is an interesting one, and mariners are awaiting with interest the outcome of the trouble.

The certificate of Capt. Cowper, formerly master of the steamer Cheloshin, is still in the hands of the court, and it is rather an injustice to him that the matter has been allowed to go so long without a settlement being effected. It will be remembered that the Cheloshin struck a rock in the Skeena river last winter during a violent snow storm, and when the inquiry was called Capt. Cowper refused to testify before the assessors, stating that they had not sufficient knowledge of local waters to give a decision in

the case. The Guild backed Capt. Cowper, and took up the matter with Ottawa.

The Guild is also pushing the matter of the formation of a naval reserve on this coast. Several prominent men interested in the shipping of the province are lending their support to the matter, and it is expected that the movement will take some definite form very soon.

IS COMING HERE FOR CARGO OF SALT FISH

Steamship Fitzclarence, Now
at San Francisco, Will Be in
Port Late This Month

To load 1,200 tons of salted salmon the big British steamship Fitzclarence, now at San Francisco, will arrive at this port about October 24 or 25. The big cargo of fish to be taken out by the Fitzclarence is now being assembled at the outer docks and is being brought in small freighters from Nanaimo and other points. It is understood that the Fitzclarence will take the fish across the Pacific to the Orient, being under charter to Frank Waterhouse & Co.

The Fitzclarence reached the Golden Gate about three weeks ago from Japan with a full cargo of sulphur. While lying at the docks there the sulphur in her holds took fire and for several days the crew combated the flames. It was not until the fire department had used patent extinguishers that the fire was placed under control. The interior of the vessel suffered considerably from the heat and she was forced to undergo repairs at San Francisco.

The Fitzclarence will be in port here several days taking on the big cargo. The fish is packed in heavy cases, but they are not too large to prove hard work for the longshoremen in loading. The weekly shipping report issued by Waterhouse & Co., showing the positions of the vessels in their Pacific fleet, is as follows:

Fitzclarence at San Francisco.
Hercules arrived at Yokohama September 29.
Lord Curzon left for Moli October 5.
Lord Derby at Tacoma loading for Orient.
Ockley at San Francisco. To load in Oriental line from Columbia river.
Orteric left from Manila for Hongkong September 27.
Verona left from Seattle for Orient September 25.
Thor left from Tacoma for Muroran October 3.

From Victoria to Your Atlantic Liner Cheaper, Pleasanter and More Convenient

You who intend to spend Christmas abroad, take note of this unique arrangement offered for the first time out of Victoria. By paying down one flat sum—very much less than what you could possibly do the trip for individually—you can have all the problems of transportation and travel solved for you before you leave Victoria, so that all you will be called upon to do is enjoy the trip.

On December 8, next, a party bound abroad, will leave Victoria under the personal direction of Mr. Claude A. Solly. The baggage of all members will be collected and taken care of, and from the time members leave Victoria until they board their steamers at New York or Portland, Me., their every want will be provided for, transportation, transfers, meals, hotels, sleeping accommodation—everything—and all much cheaper than could possibly be done by individuals.

The party will take train at Seattle on board the famous new, all-steel express of the Chicago, Milwaukee & Puget Sound Railroad, "The Olympian," travelling first class or second class, as they elect. Throughout the entire trip every comfort of the party will be studied and provided, and the members will be landed at either New York or Portland, Me. (according to what steamer they book for) in ample time to catch the sailing of December 14, the last Christmas sailings from America.

This trip will connect with the following liners, all sailing December 14 FROM NEW YORK:

S. S. Kronprinzessin Cecilie, North German Lloyd, 20,000 tons, Plymouth, Bremen.
S. S. Caronia, Cunard line, 20,000 tons, Liverpool.
S. S. Oceanic, White Star line, 17,240 tons, Southampton.
S. S. Minnehaha, Atlantic Transport line, 13,500 tons, London.

FROM PORTLAND, ME.:

S. S. Teutonic, White Star-Dominion line, 10,000 tons, Liverpool.

Soccer Stars Cost Fortunes

One wonders what the limit in transfer fees will be. When Blackburn Rovers paid such a high price for Jackie Simpson there was consternation in the football circles in England. For a time Simpson was the most talked-of man of the day, but that seemed to open the eyes of the various bodies of directors to the worth of their men, and during the last two years five thousand to ten thousand-dollar transfers have been made. But this is not all. Hibbert cost Newcastle United

SPORTING NEWS (CONTINUED)

SLUMBER POKE WINS FOR M'KAY—ASPIRES FOR CANADIAN TITLE

Victoria possesses the real "Kayo" boy of Canadian pugilistic history in Scotty McKay, the J. B. A. A. light-weight who has for the past year been putting his ring opponents away in the first and second rounds. The fight fans who viewed Monday night's bouts looked forward to a treat when the popular Scotty and Smith, of Vancouver, climbed under the ropes for their scheduled bout. The battle, if it could be called such, was too one-sided to suit the crowd, and while Scotty is as much an idol as ever, his supporters would be better pleased if he would afford them a few minutes in which to look him over. The only trouble with Scotty is that his "kick" is too rapid to suit everybody.

After Canadian Title.

Champion of the Canadian Navy, by reason of his win over Seaman Drum-bell, of H.M.C.S. Rainbow, a knockout

in the first round, Scotty now aspires for the Canadian title. He will enter the British Columbia Amateur boxing championships, which are to be held in Victoria next April, and if his showing warrants the trip he will be sent to Toronto to enter for the Canadian honors. His supporters are enthusiastic over his chances and state that he will win hands down. McKay has fought over fifty battles in the last few years, winning all but two. Both of his defeats were registered at 112 lbs., against Dick Foster and Tommy Lansdowne, of Toronto, a pair that subsequently landed their championship belts.

A Fighting Family.

The Victoria ring star comes of a fighting family, his brother Duncan, having fought at Monday night's tourney, while his dad is also a padded mitt artist of the first water.

WORLD'S SERIES AVERAGES

Giants have a good margin in slugging over the Red Sox, while the American League champions lead in fielding in the present series. The Boston club has made but two errors to New York's 7. Of the latter, five are credited to Fletcher. The complete averages, which the Times will revise after each game, follow:

FIRST GOLF BALLS MADE OF FEATHERS

Early Days of the Great Scottish Sport a Simple Proposition

Golf, as played in Scotland in 1828, when Queen Victoria began her reign, was a far simpler proposition than in the present day of the automatic handicapper, the myriad makes of ball and the multiplicity of clubs. The object of play, however, was the same as it is to-day—the getting of the ball into the hole in the fewest number of strokes. The men of the present day doubtless would not troop to the courses in such great numbers if they had to drive a sphere covered with leather and stuffed with feathers, but the Scotchmen of the early part of the century stuck to the game as religiously as to their oatmeal, and with mod-

MIDGET GIANT OUTFIELDER WINS SECOND GAME OF SERIES

JOSH DEVORE.

Nearly 35,000 persons witnessed the pitcher's battle when the Giants' left-hander, "Rube" Marquard, opposed the Red Sox' moist ball moundman, "Buck" O'Brien, and Marquard carried off the honors. Little Josh Devore was the hero of the day. The midget outfielder made a catch that snatched seeming victory

from the Boston, and sent them down to defeat. The Red Sox made a desperate rally in the ninth, and there were men on second and third and two out when Cady came to bat. The Boston catcher sent a terrific drive between right and centre, and Devore was off with the crack of the bat. The crowd cheered for the Red Sox men who were on their way home, and victory seemed won, when Devore, speeding after the ball took it with his gloved hand on the dead run and won the game. Marquard was a puzzle to the Red Sox. His fast ball sped over the plate with the swiftness of a rawhide lash and his curves were under good control.

Fans will remember how Devore was made the "Goat" of last year's world's series along with Red Murray. McCraw has been shifting Devore about, and it was just a toss-up whether the latter or Beals Becker would go into yesterday's game. Devore's work with the willow ought to feature the remaining games, now that he has struck his stride.

exceed four, that number being allowed to afford best diversion, and not so liable to confusion as six, eight, ten or twelve might be.

"The more rising or uneven the ground it, it requires the greater nicety or skill in the players; on that the preference is always given to it by the professionals. When playing with the wind light balls are used and heavy ones against it. At the beginning of each game the ball is allowed to be elevated to whatever height the player chooses.

TWENTY-TWO INJURED.

New York, Oct. 11.—Twenty-two passengers were injured early to-day when two elevated trains came together in a rear-end collision at the One Hundred and Fourth Street station of the Sixth Avenue railroad. The failure of the brakes on the second train is said to have caused the accident.

Bees have a preference in the matter of color, blue and pink being their favorites, and flowers of these tints receive many more visits from them than do others.

HOCKEY PRACTICE.

A practice of the J. B. A. A. hockey players will be held at Oak Bay on Sunday, starting at 10 o'clock. All players interested are requested to attend.

SHOOT TO-MORROW.

The shooting will take place to-morrow afternoon commencing at 2 o'clock, for the 5th Regiment Rifle Association.

To Buyers of Diamonds

There are so many features which influence the value of a diamond—features of which the average buyer does not possess a knowledge—that it is vitally important to buy from a house of unquestioned integrity and reliability.

In Victoria the diamond supremacy of Shortt, Hill & Duncan, Ltd., is acknowledged. We show here by far the most comprehensive stock one could possibly see.

Diamonds in dainty rings and pins do not necessitate a large expenditure; on the contrary, we show some awfully pretty three and five-stone rings at from \$15, and pins for \$15, too.

A report comes from Berlin to the effect that the Kaiser intends to abandon the famous upward twist of his moustache which gives such a characteristic touch to His Imperial Majesty's face, and has incidentally made the fortune of his barber.

Herr Haby was once upon a time a barber, and nothing more. Now he is "Königlicher Kaiserlicher Hof" barber, a very rich man, and the greatest authority on hair culture in Berlin.

The Kaiser, struck by the peculiarly smart appearance of an adjutant, inquired whom he employed as his hairdresser, and forthwith the lucky Haby became the Imperial barber. The whole army followed suit, but the arrangement is a matter of time and training, and the daily fixing occupies a quarter of an hour. Tongues are required, as well as other appliances not usually found on the unskilful, who cannot manage their own moustache, Haby makes a charge of seven marks a "fixing."

A curious coincidence in connection with the tour of the Duke of Connaught is that at the time when King Edward, as Prince of Wales, made his triumphant progress throughout the Dominion, the same agitation was going on in Ulster as prevails at the present time. Party feeling ran high, and Orangemen on this side the Atlantic could not forbear from manifesting something of the spirit that animated them in their welcome to the Prince. Orange arches, Orange flags, banners ornamented with portraits of William III. were displayed in anticipation of his coming, but the parade to the throne could show no parallel for one side or the other, and studiously avoided the streets where these emblems appeared. On one occasion, however, as the royal train slowed up at a wayside station, it passed under three arches, the third of which was elaborately decorated with Orange emblems. The Duke of Newcastle, who throughout the tour had displayed much vigilance in avoiding these demonstrations, did not notice it, but the Prince did, exclaiming indignantly, "Caught at last, Duke!"

His Lordship: "What ever could you have been thinking of to steal the sheep?" The Princess: "I dunno, my Lord. I must have been wool-gathering."

The Evening Chit-Chat

By Ruth Cameron

An interesting question regarding the ethics of responsibility has been put to me by one of my letter friends, and because it is not only an interesting question, but also one which is continually being raised in some form, I am going to offer my little solution of it in this column.

This is my letter friend's story. A friend of hers had a dearly loved cousin visiting her. The cousin had planned to return home on a certain day. Her hostess was so loath to have her go that she urged her to stay another day. The cousin at first protested vigorously, but finally yielded rather against her better judgment, and put off her return until the next day. On that day there was a terrible train wreck and the girl was killed in it.

"And now my friend is almost insane with grief," writes my correspondent. "And it isn't only that, but she is tortured by remorse. She says she was to blame for her cousin's death because if she had only let her go when she wanted to, she would have reached home safely. I tell her that is all nonsense, but she won't listen to me. She is making herself sick over it. What do you think?"

What do I think? Well I most heartily agree with my correspondent that her friend's attitude is all nonsense. Of course, it is inevitable that she should feel regret, but I don't think it is a case for remorse at all.

"Blame" and "fault" are very difficult words to deal with. Only the All-Wise can see and understand sufficiently about our motives and our temptations, our intentions, and our mistakes, to be sure of using these words aright. But this is the way it seems to me. One is not to blame for the chain of events which follows some act except insofar as one is to blame because the act itself was wrong.

I do not think that one can claim credit for all the events that follow one's act except insofar as the act itself was creditable, and so I think the converse holds true. For instance, if this woman had persuaded her cousin to stay another day and the railroad wreck had occurred on the day on which she had intended to go home, I do not think the woman would have deserved credit for saving her cousin's life. Conversely she does not have reason to accuse herself of being to blame for the girl's death.

In this case there was neither praise nor blame attaching to the act itself. But suppose that the woman had for purely selfish reasons unfairly tricked her cousin into staying and the girl had been killed. Then I think the woman would have been to blame for her deceit and selfishness, not for the tragedy. And suppose on the other hand she had made some special sacrifice or effort to make it possible for her guest to stay and the accident had been avoided, then I think she would have deserved credit for the sacrifice.

and effort but not for saving the girl's life.

If we were to blame or credit ourselves with all the long series of events which often follow our simplest act, we should certainly have a hard time keeping score.

We must inevitably feel regret when something unfortunate happens which would not have happened if we had acted differently, but if our act was not intrinsically wrong I do not think we ever need feel remorse.

HEAR EVIDENCE IN ACTION FOR LIBEL

PROVING WRITING IN SCHNELL CASE

Tap on the Head With Hardwood Stick More Serious Than Landlord Believed

Occupying considerable time this morning in producing evidence that is intended by the prosecution to prove the handwriting of the accused, W. H. Bullock-Webster, representing Francis G. Richards, opened the case for the prosecution before Magistrate Jay in the police court in the charge against F. H. Schnell, an hotel bookkeeper, who is charged with a defamatory libel against Mr. Richards, sheriff for the county of Victoria. The case was not concluded when court rose at lunch time, and is being continued this afternoon.

The alleged defamatory libel is contained in a letter signed J. H. Schnell, and alleged to be in the handwriting of the accused. It was received through the mail by John W. Langley, chief of police. Its contents refer to a former detective in the city force, and allege that he was guilty of impropriety about the Westholme hotel premises. The letter also accuses Sheriff Richards of impropriety during the time he was in possession of the hotel on behalf of creditors.

Mr. Schnell, the accused, is defended by J. C. Elliott, and pleads not guilty. The evidence given this morning was by the chief of police, who testified to having received the letter through the mail. William George Ptolemy, accountant for the Great West Permanent Loan Company, produced fifty-one cheques which he said bore the signature of the accused. The letter has an account at the company's office. The witness recognized the signature, but was not prepared to say that the balance of the writing on the cheques had been done by the accused, as he had not seen him write them out.

An account book of the Bellevue hotel, Yates street, where the accused was employed at the time of his arrest, was produced by Mrs. Lottie Robinson, who said that accused had been a clerk there and had charge of the account book. It was his duty to make entries in it, and the writing would be his, as he was the only one who used the book. Frederick Hawes, employed at the W. C. T. U. mission, where the accused had also been employed, produced an account book from that institution, and gave evidence regarding certain entries in the book.

which he said were made by the accused.

In attempting to eject a man named B. Johnston, a resident of Sidney Island, from a Government street rooming house, Samuel Feld, the proprietor of the rooming house, gave Johnston what he declares was a tap on the head. As a result of the tap Mr. Johnston was five days in the hospital, and the police had to be sent for to take him there. When he recovered he laid a charge of assault against the rooming housekeeper, which was partly heard this morning.

Constables Florence and Wood informed the court that the injured man had one eye badly cut, and had a lump raised over one eye that swelled to the size of an egg. The eyebrow had a dent in it in which the constables said they could place a finger. The injured man bled profusely and was in a dazed state when the constables arrived, and took care of him.

Mr. Field's defence was that the lodger came home intoxicated and that he was given the price of his room and told to leave. When he refused to go Mr. Field went to his office and obtained a hardwood stick which he had specially made for just such cases, and gave Mr. Johnston a tap with it. He said that during five years lodging house keeping he had trained his ear to the sounds coming upstairs, and was well able to tell from the footsteps the state of the person making his way to his room. If men came in drunk he turned them out. On the occasion before the court he gave the man a tap to bring him to his senses. Magistrate Jay remarked, when the accused made this statement, that he appeared to have knocked all the sense out of the lodger. Other witnesses having to be called for the defence the case was remanded until to-morrow morning.

Frank Edwards and Joseph Murphy, who engaged in a street fight, were each fined \$10.

LOCAL NEWS

Social This Evening.—Court Maple Leaf A. O. F. will hold a social dance in Foresters' hall, Broad street this evening. All Foresters are invited.

In City on Visit.—Mrs. Alfred Kolmer, of San Francisco, is visiting with Mr. and Mrs. Fred Landsberg at their residence, 106 Medina street.

Household Registrations.—There have been 122 signed declarations left with the city assessor to date for the household franchises in municipal elections. The time for registration expires with the present month.

Building at Oak Bay.—The authorities at Oak Bay yesterday issued building permits to J. J. Hill for a five-roomed house on Willows road to cost \$1,300; and to J. S. Clark for a seven-roomed house on St. Louis street to cost \$4,500.

Y. M. C. A. Football.—To-morrow the newly-formed football team of the Y. M. C. A. will meet a strong Navy

team at Esquimalt on the Transfer field. The Association team will be composed of Hewitt, Lyons, Huder, Main, Whitecock, Lally, Jones, Scott, Dines, Harris and Earsham.

Great Cricket Event.—Tickets for the great cricket match between a British Columbia team and the famous Australian eleven are now on sale at Stuart & Reeves, at the corner of Port and Douglas. All cricket lovers should procure tickets at once for this sporting festival. The match, which will be a three-day event, takes place on the 26th, 27th and 28th of October.

Greeks and War in Balkans.—While the reservists are waiting hourly for a summons to leave for the east en route to Europe to take the field, the subscriptions are coming in to equip members who will return should orders be received by the Victoria Greek colony. The local residents have no intention of being behind the Vancouver Greek citizens in their sacrifices for patriotism.

R. Marpole Here.—R. Marpole, executive assistant of the C. P. R. was in the city this morning, and had a conference with H. E. Beasley, general superintendent of the E. & N. railway. Later he proceeded to land office of the railway and transacted some routine business. Mr. Marpole declined to make any statement relative to the railway terminals question.

Fire Brigade Turn Out.—The fire department made a quick turn-out yesterday when blazing shingles on the roof of a dwelling house at 723 Port street promised danger to the large buildings adjacent. The fire was swiftly put out and practically no damage was done. The premises, which are owned by the Western Lands Company, will be demolished very shortly to make room for a fine office block.

Father Vaughan's Departure.—Father Bernard Vaughan left the city yesterday afternoon for the mainland on his way to New York. J. C. Hart and Alex. McDermott saw him off at the boat. The famous priest will speak at Calgary and Moose Jaw and from the latter place will leave for Philadelphia en route to New York. It is understood that his business in the chief city of the States is in connection with a book on Socialism which is shortly to be published.

Decorations Committee.—The civic decorations committee met this morning at the city hall, and were able practically to close up the accounts for the recent reception of the royal party here. There are, however, one or two matters upon which they will take the advice of the council, arising out of the report tabled by City Purchasing Agent Galt. The cost will come well within the margin of the vote allowed by the city council.

Building Permits.—Building permits have been granted to T. A. Kennedy, for a garage on Albany street; S.

Roberts, for a garage on Young street; E. J. Chambers, for a five-roomed house on Ross street, costing \$1,500; Joshua Sweetheart, for a four-roomed house on Washington street, costing \$1,200; Mr. Noon, for R. R. Harrim, for a six-roomed house on Hulton street, costing \$2,500; H. T. Knott, for a seven-roomed house at the corner of Irvine and Fairfield road, costing \$2,500, and to J. Daniels, for a five-roomed house on Bank street, costing \$2,000.

Sacred Concert.—A specially good programme has been arranged for the sacred concert to be given in the Victoria theatre on Sunday evening next. The concert will commence as usual at 8.15 and doors will be open at 7.45. Details of the programme will be published in to-morrow's issue, but it might be mentioned now that J. Oliver will sing "Ora Pro Nobis," and Mr. H. J. Hutcherson "The Lord is My Shepherd." (J. Adams.) Benedict Bantley's orchestra will again render the musical selections.

New Road.—Notice is given in the British Columbia Gazette that the following highway has been established, viz.: Commencing at a point on the section-line between section 2, ranges 2 and 3 east, North Saanich, 599 feet from the northeast corner of section 2, range 2 east, North Saanich; thence due east a distance of 15 feet, more or less, to the western boundary of the East Saanich road, having a width of 33 feet on each side of the above-described line, as shown on a plan deposited in the department of public works the 31st August, 1912.

Development League.—Old Country advertising of the beauties of Vancouver Island still brings in batches of letters and applications to the office of the League. A feature of the correspondence this morning was the number of letters received from women who are anxious to taste of the beauties of Vancouver Island. One correspondent from Bradford, who, by the way, is a Suffragette, asks, "What are the advantages for Women" while a professional nurse among the correspondents writes from Ayr for information as to openings for nurses in the hospitals of Vancouver Island. The secretary reported this morning that he was greatly indebted to Joshua Kingham, of this city, who recently distributed in England several scores of copies of the League's booklets and pamphlets in quarters where they were most likely to bear immense fruit.

Bound for Victoria.—The G. T. P. steamer Prince George, Capt. McKenzie, left Prince Rupert early this morning. She will arrive here on Sunday morning.

The Peruvian barque Cavour is expected to complete her cargo of 1,100,000 feet of lumber at Knapperton for Peru about next Wednesday.

The French barque Eugene Schneid-er, which arrived at Cork on September 30, 156 days out from Oregon, was ordered to Belfast to discharge.

BROTHERHOOD IN SESSION HERE

DELEGATES FROM PACIFIC COAST

Activity of St. Andrew Brother- hood Shown Convention Now Assembled

The Brotherhood of St. Andrew met in the city this morning to open the convention of the Pacific Coast chapters, and a large number of delegates assembled at Christ Church hall to take part in the opening session. At noon when the conference adjourned for lunch 74 had registered, and there were others due in on the afternoon boats from the mainland and the south to take part in future sessions. With an impressive quiet half hour service, followed by holy communion, the convention opened at Christ Church cathedral.

Rev. Dr. Gowen, rector of Trinity church, Seattle, the leader of the Quiet Hour, used no text. He explained the purpose of the opening service as a time for testing and quoted the words of St. Bernard, "Bernard, for what are thou?" These were the words which each delegate was to apply to himself on this occasion. Dr. Gowen went on to say that Brotherhood men were here to test themselves by the divine standard, to forget their own

Nelson; and A. C. Newell; George E. Rawie, president of the local assembly, Vancouver; G. Frank Shelby, Denver, American field secretary, on "The Next Man and How to reach him"; and James M. Ewing, president of the Seattle local assembly, on "The Next Man and How to Hold Him."

At the public meeting this evening at

convention.

St. John's hall, over which R. W. Perry will preside, Rev. E. V. Shaylor, rector of St. Mark's church, Seattle, will speak, as well as Canon Bliss, of Spokane, and R. W. Allen, of Toronto. The subject will be "The Church's Advance and the Layman's Part In It." The conference continues to-morrow and Sunday.

Between the sessions lunch was served at St. John's hall.

B. C. ELECTRIC TO EXTEND ITS LINE

A Loop From Douglas Street to Burnside Road Will Be Built

It is stated on excellent authority that the B. C. Electric Railway will shortly extend their line on Douglas street one block north from the present terminus at Cloverdale, and turning down Arden street westerly will traverse private property across Irma street to the six acres on the Burnside road, where the company has a large amount of storage material for the Saanich extension.

The arrangements for this change are now almost completed, and it is expected the joining up of these two ends of the route will be brought about as soon as the necessary approval of the authorities has been secured.

SCHOOL BOARD.

Meeting Will Decide Suitable Site for
Quadra Street School.

A special meeting of the school board will be held this afternoon at five o'clock to receive a report on the site for a school on Quadra street, north.

An offer has been made by Grant & Lincham, among the others received, of property on the southeast corner of Pinta and Quadra streets, and in order that the board may be more conversant with the subject, and to see if the high price asked is justified by the nature of the site, the matter was left over from the monthly board meeting.

The intention is to have the site in view for construction next year, and in the supplementary by-law voted in May for extraordinary school purposes a sum is appropriated for the purchase of this site before realty values still further advance in that section of the city.

BIG TURNOVERS ARE REPORTED

REAL ESTATE SALES IN WEST BAY LAND

Canadian Northern Reported to Have Bought Capt. Troup's Residence for \$100,000

Real estate men this morning say that they cannot satisfy inquiries for property in West Bay and other waterfront sections which may be affected by the government announcement to be made to-night. There is a general demand at enhanced prices, especially for West Bay property.

It was reported to-day that a sale of large dimensions had been made to the Canadian Northern Railway Company, the property in question being the residence and waterfront property owned by Capt. Troup, of the C. P. R. in West Bay and facing Esquimalt road. Captain Troup is said to have received \$100,000 for his site.

A sale of another large residence and grounds in the same location for \$105,000 was reported yesterday afternoon, but on inquiry was not confirmed. These would suggest that the Canadian Northern Pacific will have their terminals at West Bay.

NEW APPOINTMENTS.

List Appears in Current Issue of the
B. C. Gazette.

The current issue of the British Columbia Gazette announces the following appointments:

Alfred John Brine, of the city of New Westminster, to be deputy district registrar of births, deaths and marriages for the county of Westminster.

A crowd numbering about forty thousand persons were present when the Boston Americans defeated the New York Nationals by a score of three to one to-day in the fourth game of the world's series.

Joe Wood, Boston's pitching star, was invincible when hits meant runs and the New York batters could not connect with his offerings. Wood did not give a base on balls. Wagner played a strong game at short for Boston, taking several hard-hit balls that were heading for centre field, while on the run, and pinching the batters at first by fast throwing.

The National Commission's figures for attendance and receipts at to-day's game were: Paid attendance, 35,502; total receipts, \$75,444. National Commission's share, \$3,564.40—player's share, \$41,287.76; each club's share, \$15,795.92.

personal standards, and to rekindle their spiritual zeal to re-establish a hope and joy in their work, and to consider the depths of their spiritual life. Quietness and the sense of brotherhood were essential to a proper preparation. At the communion service Dean Doull was the celebrant. The Dean gave, in eloquent language, an address of welcome to the delegates when they subsequently came to order at the parish hall. In the course of it he touched on the white slave traffic, and the splendid work in which the Brotherhood could co-operate in fighting the accursed vampire which preyed on civilization.

The conference was called to order by the general secretary, J. A. Birmingham, of Toronto, who explained the arrangements made, and the objects which the convention had in assembling in this city.

An excellent address on the development of the spiritual life was given by Capt. Arthur P. G. Hyde, of Fort Flagstaff barracks, who was later followed by F. A. Williams, of Sidney. Capt. Hyde pointed out the difficulties of carrying out a truly spiritual life in this modern civilization, and of the fight of life which resembled that of his profession. The meetings will be continued this afternoon, among the speakers being F. T. Irving, Dominion council member,

MESSANGER FOILS TRAIN ROBBERS

FIGHT WITH BANDITS IN EXPRESS CAR

Although Seriously Injured He
Wounds One Man—Others
Make Escape

Port Smith, Ark., Oct. 11.—Four bandits bungled a hold-up of a northbound Kansas City Southern passenger train between Hatfield and Mena, Ark., early to-day. One was wounded and captured, and the other outlaws escaped.

PAPE'S DIAPEPSIN REGULATES STOMACH

Time It! In Five Minutes Gas,
Sourness and Indigestion
is Gone

Do some foods you eat hit back—taste good, but work badly; ferment into stubborn lumps and cause a sick, sour, gassy stomach? Now, Mr. or Mrs. Dyspeptic get this down: Pape's Diapepsin digests everything, leaving nothing to sour and upset you. There never was anything so safely quick, so certainly effective. No difference how badly your stomach is disordered you will get happy relief in five minutes, but what pleases you most is that it strengthens and regulates your stomach so you can eat your favorite foods without fear.

Most remedies give you relief sometimes—they are slow, but not sure. Diapepsin is quick, positive, and puts your stomach in a healthy condition so the misery won't come back. You feel different as soon as Diapepsin comes in contact with the stomach—distress just vanishes—your stomach gets sweet, no gases, no belching, no eruptions of undigested food, your head clears and you feel fine. Go now, make the best investment you ever made by getting a large fifty-cent case of Pape's Diapepsin from any drug store. You realize in five minutes how needless it is to suffer from indigestion, dyspepsia, or any stomach disorder.

after a battle with Express Messenger Merritt Burgette, of Kansas City, in which Burgette exhausted his ammunition, and was badly beaten.

Burgette shot the robber, who was discovered an hour later after his companions had deserted him. The robber is being taken to Mena. Fifty or more armed posses are pursuing the bandits. Burgette is in a hospital. He will recover.

The train, known as No. 2, left Hatfield about 2 o'clock. While Burgette was working in his car he saw the bandits clambering up to the side door. They smashed the glass with their revolver butts. Burgette hid his most valuable packages, despite the hail of bullets which the bandits poured into the car. The packages hidden, Burgette turned his attention to the invaders. As he fired at them, the robbers reached through the smashed windows, and loosened the catch which held the door from the inside. Then they opened the door and sprang into the car one by one, firing on Burgette as they advanced. The messenger, protected by baggage, met the robbers' fire.

The train had attained a speed of about thirty miles an hour, and apparently none of the train or locomotive crew knew that a hold-up was being attempted. A shot fired by Burgette before the robbers gained the inside of the car wounded one of them. The fight continued until Burgette's cartridges were gone. The robbers closed in, and by force of numbers overpowered him, although he gave battle to three, wounding the butt of his shotgun effectively.

The bandits clubbed the messenger, repeatedly asking: "Where's that package of money?"

Bleeding, Burgette crouched in a corner of the car while the robbers brutally beat and kicked him, but did not reveal the hiding place. The bandits searched the car carefully, but failed to secure any booty. Then they applied the airbrakes and escaped.

In answer to the conductor's repeated knockings on the door of the express car, Burgette struggled to his feet, unlocked the door, then fainted. He was revived long enough to give a brief account of the attempted hold-up, and the train was rushed into Mena. A posse was organized to pursue the robbers into the hills near Hatfield and Potter, Ark. Near Potter the wounded robber was found.

ENTHUSIASTIC OVER WEST.

Montreal, Oct. 11.—"I am sorry I did not go before," said Sir Lomer Gouin, premier of Quebec, on his return yesterday from a month's trip through the west. "It is a wonderful country," the premier went on, "and every business man should see it."

Sir Lomer and party went right out to the coast. Speaking of the towns and cities, Sir Lomer said: "They are ambitious, energetic, enthusiastic and prosperous."

GUNS AND FUSES AMONG EXHIBITS

Bits of Exploded Bombs and
Alarm Clocks Also Col-
lected by Prosecution

Indianapolis, Ind., Oct. 11.—Pieces of exploded bombs, old tin cans in which nitro-glycerine had been carried, cartridges, fuses and magazine guns, were put in readiness by the government to-day to be used as exhibits in the "dynamite conspiracy" trial.

Gathered from many sections of the country in the wake of Orville E. McManigal and the McNamara's, they have been classified by Clarence W. Nicholas, assistant district attorney, and are to be used as physical evidence in the government's charges of illegal interstate shipment of explosives. Mr. Nicholas, who prepared much of the government's case before the federal grand jury, for weeks has been engaged with assistants in sorting the jumble of evidence. Six hundred and twenty exhibits have been listed. They are to be presented to the jury one by one, and include two magazine guns, a rifle, fuses and alarm-clock attachments for bombs, taken from the valises of McManigal and James B. McNamara, when they were arrested in a lobby of a hotel in Detroit on April 12, 1911. Fuses, alarm clocks and dynamite boxes taken from the vaults of the International Association of Bridge and Structural Ironworkers when J. J. McNamara, the secretary, was arrested in Indianapolis on April 22, 1911, parts of an internal machine found near the home of A. J. Zeehandaar, Los Angeles, on the morning the Los Angeles Times building

was blown up, and the original bill for \$1.60 paid for the aluminum letters used by James B. McNamara and his accomplices in changing the name "Pastime" to "Peerless" on the luncheon in which the explosives used at Los Angeles were brought into San Francisco Bay.

VOLCANO IN ERUPTION.

Guayaquil, Ecuador, Oct. 11.—A great quantity of burning ashes fell last night on the town of Alausi in the province of Chimborazo, and also in a lesser degree at Rio Bamba, the capital. It is supposed the ashes were carried from Sangay, an active volcano of the Andes.

The inhabitants of the province fear a serious eruption.

The Man of Discretion Observes an Average

THE GIFT OF OMISSION—knowing what not to wear—is important.

A man of Dress Discretion, a well-dressed man, avoids the patterns and styles which are exaggerations.

The English tendency, with Semi-ready refinements, holds favour.

The Semi-ready style is the net average of what the best dressed men in Canada are wearing.

The softness and warmth of the new winter fabrics combine with the cultured designs in our Fashion attire.

Even if you value wear before style, you get it in the innate goodness of these Suits and Overcoats at \$15, \$18 and \$20. That they are in perfect, unobtrusive, good taste cannot be urged as an objection.

Suits and
Overcoats

PROMINENT SCOTTISH GOVERNMENT OFFICIAL

Sir George McCrae, Former British M. P., Now Chairman of Government Board, Here

Sir George McCrae, a former Scottish Liberal M. P., who is now head of the Scottish Local Government Board as its chairman, arrived in the city last evening, and leaves again to-day for Seattle.
Sir George McCrae, before entering the British House of Commons, was prominent in the municipal life of Edinburgh, and was for eight years chairman of the finance committee of the city council, during which he promoted numerous financial and other reforms, and, therefore, it was not unnatural that he should be tempted to leave the House after ten years' membership for the constituency of East Edinburgh to take the important position of directing local government in Scotland.
It is a municipal mission which brings him to this side of the Atlantic, having crossed to attend the Congress of Public Health at Washington. Since that time he has been investigating a number of subjects in the United States and Canada. One phase of the work which falls to the local government board is that of looking after the families of men who have deserted them, and have emigrated to the Overseas Dominions. The cost to Scotland of this support is \$150,000, and the department finds it no easy matter to trace the men and hold them responsible for obligations which could be enforced at law had they remained in Great Britain. Sir George is also looking into the conditions obtaining here in regard to poor law children sent out to Canada, and ascertaining if it is desirable to extend the principle more than at present.
Having now left the field of politics for administrative work Sir George is not anxious to discuss political subjects, but pointed out that the Home Rule issue must merge ultimately in the larger one of Home Rule all round. The congestion of business renders it imperative that some form of devolution must be adopted. Opinion in Scotland is tending towards more direct administration of national affairs by a Scottish parliament or national council.

MEDICAL OFFICER AND PUBLIC CLINIC

Opportunity Should Be Afforded for Relief in Indigent Cases

The city medical officer, Dr. G. A. B. Hall, is strongly in favor of a public clinic, and thinks the time is coming when the city will have to provide, in connection with the enlarged quarters for the medical department, a room for the reception of cases where minor operations may be performed.
He has no desire to cut into the legitimate business of the private practitioner, but the public clinic would serve the same office as is found in larger cities where the provision has been made. It is for indigent cases exclusively, and for the performance of those trifling operations which require attention, and which some parents would neglect unless it could be remedied gratis.
This necessity is particularly felt in cases referred by the school health inspector to the city authorities for action, and where the parents can ill-afford to pay doctors' fees.
The treatment referred to cannot be given by the health inspector because he is not engaged for that purpose, but only in an advisory and inspectorial capacity, and he must be in a position to turn over indigent cases to the municipal authority to receive attention, or else they will be neglected. In fact, if the interpretation of the law which has been given by the commissioner inquiring into the South Vancouver local administration is correct, the school board has no power to pay a medical health inspector for minor operations.
Dr. Hall says that while he has treated a few cases from time to time, the limitations of the present office prevent that satisfactory arrangement which should be possible in dealing with the increasing school population of the city.

PASSING SHOW

Majestic Theatre.
"Blind Love" (Biograph) is the story of a girl in a small community, fascinated by a show scoundrel of good appearance who passes over the plain young man who had formerly held her affections. She is one of the fortunate ones who is enabled shortly to get rid of her mistaken alliance, and find happiness in the companionship of a man worthy of her. "Pulp Mills in Quebec," an educational film. "Microscopical Curiosities," a nature study. "The Light of St. Bernard" is a story of seaside people. St. Bernard is the name of an island. "The Light of St. Bernard" is the name of a book which stands upon it, far out upon the waters. It shows its great ray. The villainous crockers are foiled in their desperate plan. A noble girl, who is keeper of the light is faithful to her trust. In a night of terror in the lighthouse she puts to shame her revilers, and stands bravely at her post, saving the ship. "A Day in the German Navy" shows an inspection of one of the great white fleets of warships. "Stranded Actor," a comedy. "London Animated Journal," tells of the day's happenings.
The Empress Theatre.
Songs and pictures of Ireland are included in the featured act which Mr. Barney Gilmore presents at the Empress theatre this week. Mr. Gilmore is well known as a lyric tenor and was the star of some well known Irish musical comedies, notably "The Rocky Road to Dublin." He returned recently from Ireland and offers an act entitled "A Jolly Ramble Through Ireland," in which some interesting pictures of the old land are shown.
"His Father's Son," a tabloid drama in two scenes laid in New York at the present time, is presented in capital manner by Walter H. Brown and company. There are four players in the cast, and each has been well selected for the part.
Misses Cecile Weston and Louise Leon present a lively act in which good piano music and ragtime melody form the chief part. Miss Leon is a pianist of much ability, and one of her numbers is a Rubenstein symphony which is played excellently. Her companion sings some good ragtime numbers.
"Fun in a Gymnasium" is the title of a burlesque in which Mamie Ling and Bobby Long appear.
Mimicry forms the chief part of the offering of Alf Holt. Mr. Holt, who recently returned from a tour around the world, during which he appeared at the chief places of interest in the Orient and Antipodes, is a capable mimic and presents an amusing act.

SEEKING AID.

Ratepayers of Nanaimo Will Be Asked to Authorize Loan to Agricultural Society.

Nanaimo, Oct. 11.—Petitions are being circulated asking the city council to submit a by-law authorizing the loan of \$5,000 to the Nanaimo Agricultural Society to enable that body to life the mortgage on its buildings. The petitions are largely signed.
Those interested in the welfare of the society are anxious that the by-law should be submitted, as they believe that despite the fact that a similar by-law was defeated last year there will be little difficulty in passing it, now that the people have seen the class of building the society have put up and the benefit the annual agricultural show is to Nanaimo. Especially anxious are they that the by-law should carry for the reason that the provincial government has virtually promised the equivalent of the \$5,000 the city will give to be expended in fixing up the present grounds at the Agricultural Society's premises. The provincial government has already given the Society \$5,000.

JACK JOHNSON'S "BROTHERLY" LOVE

ACCUSES BROTHER OF LARCENY AND FORGERY

Declares He is Prosecuting Charley in Order to Protect Him

Chicago, Oct. 11.—Jack Johnson, champion pugilist, had his brother Charley arrested here yesterday, charging him with grand larceny, forgery, obtaining money under false pretences and a few other offences, and claimed that the prosecution was an evidence of "brotherly love."
The champion swore out the warrant, and appeared against Charley in the municipal court. These are the charges enumerated:
Purchasing automobile tires from a local concern, and charging the cost, \$180, to Jack Johnson. Deceiving himself in a gorgeous brown and red suit and paying for the same with a cheque to which he signed the name "Jack Johnson." Obtaining a supply of electric light bulbs from an electrical concern, and again signing the champion's name. Writing a letter to B. F. Moseley, Jack's attorney, and requesting the loan of \$20 "for your friend Jack."
Johnson says he did not get any of the \$20.
The worst thing Charley did, according to Jack's testimony, was to borrow \$20 on an automobile tire from an automobile company on Michigan avenue.
"He wrote a receipt on the tire in my name," said Jack. "He promised to redeem the tire, and did not do it. He also tried to get his hands on \$300 worth of sables that belonged to my dead wife, but I did not let him get away with that."
"It's just a case of too much brotherly love on my part. I let him have lots of money, and then he goes and four-flushes around and sponges on my friends. So I'm having him taken into court for his own protection."
"Ain't it better that I protect him than anybody else? Ain't that brotherly love?"

HIDE IN TUNNEL.

American Women Take Refuge in Mine Workings When Rebels March on Camp.

Los Angeles, Cal., Oct. 11.—A story of how six American women remained in a mine tunnel for two days and a half during the attack by Mexican rebels on the mining camp at El Tigre, in the state of Sonora, Mexico, was brought here by J. W. Malcomson, of

Kansas City, consulting engineer of the El Tigre Mining Company. When the surrender of the camp demanded by the rebel general, Salazar, was refused, the women, who were wives of company officials, were placed in the tunnel with provisions to last for several days. They were accompanied by a guard of Americans, who had thirty rifles and 5,000 rounds of ammunition.
When Salazar entered the camp after a thirty-hour bombardment, he told the Americans he knew rifles and ammunition were secreted in the tunnel

and demanded them. Five rifles and 500 rounds of ammunition were brought out, and the rebel general was not curious to learn if more were concealed.
After the rebels evacuated upon the approach of federal reinforcements, the women returned to daylight none the worse for their experience.
"Spick and span" is a term derived from the stretching of a new piece of cloth on spikes (hooks) and spans (stretchers).

FOR any "exclusive features" that the custom tailor may be able to provide, you are likely to pay heavily—probably more than the clothes themselves are worth.

You should pay only for two things in clothes—serviceability and style.

Beyond these, no single feature is worth paying very much for. And yet there are points about FIT-RITE clothes that it isn't reasonable to expect in garments made by the small custom tailor.

C. N. R. RATES IN BRITISH COLUMBIA

(Continued from page 1.)

Columbia at as low a rate as prevailed in the United States, but counsel for the province pointed out that the principal complaint of British Columbia was as to the cost of freight carriage on merchandise as compared with the cost in eastern provinces.

The railway companies gave evidence that water competition on the Great Lakes controlled freight rates; but it was contended that this could not affect freight rates during the close of navigation, and that merchandise was transported the same in winter as in summer.

It was admitted by the C. P. R. that on through freight rates the province of British Columbia was simply credited back on a mileage basis, and not in the same ratio as the local rate. At the close of the investigation, counsel obtained an order from the board directing the railway company to furnish information showing the amount of earnings from local rates, as distinguished from through rates, on the Pacific division. This will be considered when the board resumes consideration of the case on November 4.

REPORT ON THE FAIR.

W. C. T. U. Tent Was Very Successful—Mrs. Andrews Resigns.

The W. C. T. U. held a business meeting yesterday afternoon in the Mission, Store street, a good attendance of officers and members being present, and a considerable amount of business was transacted. The chair was taken by Mrs. Willis Croft, the president, whose return after a several months' absence was very much appreciated by the members.

Mrs. Andrews, vice-president, read a very full report of the work done at the tent which was erected in the exhibition grounds during the fair week, when refreshments were served, and it was satisfactory to note that, after all expenses had been paid there was a balance of \$127. This amount it was decided at the meeting should be handed over to the building committee, and a very hearty vote of thanks was accorded Mrs. Andrews for her excellent report, and to all those who helped during the fair. In this connection special mention being made of Mrs. Shewwood, Mrs. Wellwood, and Miss Copeland, who gave a great deal of assistance to the project by being on the grounds most of the time. Thanks were also voted to the Ladies' Aid of the Metropolitan church, who lent tables; to the Ladies' Aid of Emmanuel church who lent dishes, and to Mr. Boulden who gave the tent.

Mrs. Andrews, who has held the office of vice-president during the last few months, yesterday submitted her resignation of that office, and once more resumed her office of treasurer, who left the appointment of a vice-president until a succeeding meeting.

Miss Dorman submitted a very encouraging report for the last month, and the meeting decided to vote \$10 toward prohibition work in the province. It was further decided that a pound party should be held at the mission on October 22, from 2.30 to 6 o'clock, when it is hoped that there will be a big attendance, and that an effort will be made to show an appreciation of the work which is being done by the Union by giving some measure of practical help on this occasion.

PRINCESS THEATRE.

"East Lynne" will be staged by the Williams Stock Company this coming week. The management has received many requests for its revival, and there is no doubt that this great emotional drama will meet with success.

At the present time there is a steady demand for the revival of standard plays. She stoops to conquer, and Oliver Twist, have both been recently put on in New York and met with instant success. The scene of the 143 opens at East Lynne, the former seat of the Earl Lord Mount Severn, Mr. Carlyle, a lawyer, purchases East Lynne, and marries Lady Isabel, the only daughter of the Earl now deceased. Miss Cornelia Carlyle, a snappish old maid renders Lady Isabel very unhappy by her interference in domestic matters. Miss Barbara Hare has long been secretly attached to Mr. Carlyle. Her brother Richard Hare has been accused of murder, and is a fugitive from justice. He returns secretly, and has an interview with Barbara, who gets Mr. Carlyle to lend him money. Sir Francis Levison instills into Lady Isabel's mind the belief that her husband is in love with Barbara Hare, and in proof of it leads her where she may witness an interview between Mr. Carlyle and Barbara. Mad with jealousy she deserts her home and husband. The cast is as follows: Lady Isabel, Miss Mildred Page; Barbara Hare, Miss Beattie Bruce; Corny, Miss Josephine Rice; Joyce, Miss Julia Maloney; Archibald Carlyle, Mr. Van Dyke; Levison, Byron Aldern; Lord Mount Severn, Arthur Belasco; Richard Hare, James Conway; Dill, Dave Williams; officer, E. J. Howard, and Little Willie will be played by a Victoria favorite, Baby Adeline, "East Lynne" all week, Wednesday and Saturday matinee.

The next biplane sent out from the Royal aircraft factory at Farnborough, it is reported, will be fitted with a secret device for starting the propeller. Hitherto, of course, all aeroplanes have had to be started with extraneous help. If the propeller stopped in mid-air the pilot has no choice but to plane down. With the new invention the pilot will be able to re-start the machine in mid-air.

IDEAS OF A PLAIN MAN BY DR. FRANK CRANE

To be always consistent one must follow the crowd. There is nothing stable in opinions that are not molded by custom, institutions and the established order.

Now these things are all mixed with fraud. Whoever will love the truth and go where it leads must needs be often inconsistent. For truth is as large as the universe itself, while we are small and can see only a bit of it at a time.

Truth is like a diamond of many facets, we get gleams of it now and then, and sometimes the ray is yellow and sometimes red.

Let us not be alarmed if life seems one thing to-day and another to-morrow; both are true, for life is manifold; and if we hold to yesterday's truth to the rejection of to-day's we fall into the error of little, safe souls.

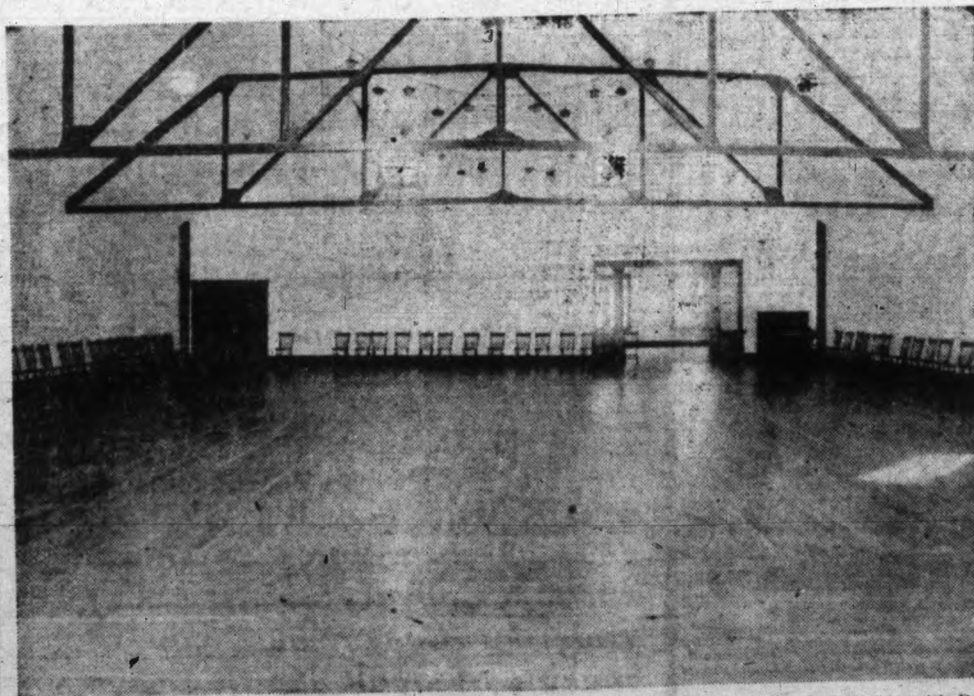

The end of consistency is the Pharisee.

The end of open-mindedness is wonder, worship and the freshness of the soul eternally.

The largest opal in the world weighing 17 ounces, is worth \$300,000, and belongs to the Emperor of Austria.

NEW CONNAUGHT HALL TO BE OPENED TO-NIGHT

The new Connaught hall, at the corner of View and Blanchard streets, will be formally opened this evening by a dance which will be given by Mrs. Simpson, the well-known dancing mistress, who has charge of this beautifully floored and spacious room.

The new hall occupies the floor just above the Acme Press, and owes its existence to the foresight and enterprise of the late Mr. Connaught.

needs of the community than others who have realized the dearth of halls. The Connaught floor is 66x100 feet in size, and is of finely sprung polished maple, the room being excellently lighted and well-ventilated. The seating arrangements for the orchestra will be erected shortly, the platform to occupy a corner position, and Miss Thain has been engaged to supply the music.

The additional rooms consist of a dining-room, a kitchen, a bathroom, and a washroom, and are connected with the main hall by an archway, next to this being a big kitchen with

water heater, sink, and gas stove; while commodious dressing rooms open off the entrance hall, and will be one of the appreciated features of the new hall.

Those who have attempted in past seasons to fit their dancing arrangements to the vacancies in the hall schedules, will doubly appreciate the advantages of this new hall, and social organizations generally will benefit by the innovation.

DISMISSED BY JUDGE.

Toronto, Oct. 11.—With a few words of good advice Judge Denton yesterday dismissed Guy W. Thomas, charged with having fraudulently obtained \$400 by cashing four cheques on an Edmonton bank at the Prince George hotel without having sufficient funds in the bank to cover the amounts.

His honor said there was a reasonable doubt as to the young man having known that he was doing something that was not within the law. He had been probably encouraged to overdraw on the bank because he had been allowed to do it once before.

"You are only 23 years old," said his honor, "and you have never been in trouble before. Now, it is to be hoped you will never again get in trouble of this kind. Another judge might have found you guilty, but I am disposed to be lenient."

BY-LAWS FOR NEXT ELECTION

MUST MAKE CALL FOR LARGE VOTE

Problematical Yet What Sums Will Be Required for Proposed Schemes

There is little doubt that when the citizens are called upon in three months to choose the city council of 1913, there will be a number of by-laws for them to pass judgment upon. There will have to be a loan for sewer construction work, and another for water-works extensions.

The Jubilee hospital is also going to ask for money for a new building, and there are other suggestions which deserve attention, for which it will be necessary to ask money by way of loan. The swimming bath, which can be made a self-supporting institution, must be built of borrowed money, and so can only go in the form of a loan.

It is also proposed to ask the citizens to vote an additional sum to carry through the fall scheme in a manner befitting the community. The council have an estimate of \$55,000 as the cost, apart from the steel cages, and only \$30,000 remain on credit of the loan for this purpose authorized nearly three years ago. This controversial question is one over which two successive councils have quarrelled, and apparently it will be left to another elected body than the one which is now in office. It is useless to ask the public for less than \$35,000 if the jail, magistrate's quarters and emergency room for accidents are to be provided, and probably \$40,000 would be nearer the mark, making \$70,000 in all.

So far as the school board is concerned, the trustees are able to snap their fingers at the municipal council through the special powers given to them at the last session of the legislature, and intimate that the council can submit the by-laws just when and how the board pleases. Hence there is no urgency for the board to decide whether it will ask the council to submit a by-law for school purposes at the January election.

There are other public questions which deserve attention from the council before the roster of by-laws is finally settled. What, however, is certain, is that the amount which will be asked will be large, and that the ratepayers will have to swallow the charges whatever they may be, or else reject them as an alternative to the setting back of the progress of the city by refusing the necessary funds.

They were trying an Irishman charged with a petty offence, when the judge asked: "Have you anyone in court who will vouch for your good character?" "Yes, your Honor," quickly responded the Celt; "there's the sheriff there."

Whereupon the sheriff evinced signs of great amazement.

"Why, your Honor," declared he, "I don't even know the man."

"Observe, your Honor," said the Irishman, triumphantly, "observe that I've lived in the country for twelve years and the sheriff doesn't know me. Aint that a character for ye?"

IMPRESSIONS OF EUROPEAN TRIP

MR. KINGHAM RETURNS FROM SUMMER VISIT

Political Situation in Great Britain—An Example of the British Preference

Joshua Kingham, president of the Victoria Liberal Association, and Mrs. Kingham, arrived in the city yesterday afternoon on their return from a five months' visit to Europe. Mr. Kingham told a Times man that he had shared with Mrs. Kingham a delightful holiday, which had been divided between the United States, England, France and Switzerland, and on their return they had crossed the continent by easy stages, stopping off at Montreal, Toronto and Winnipeg.

Mr. Kingham had some business to transact in the east before crossing the Atlantic in the monster, White Star liner Olympic, and when they arrived in England they found the country suffering somewhat from the wet weather which has prevailed this summer.

As it is seven years since he was in his native land, naturally great changes have taken place in the country, particularly in the political world. The Balfour ministry was dying at that time so that the interval covers practically the whole of the Liberal administration under Sir Henry Campbell-Bannerman and Mr. Asquith. Speaking of politics in Britain Mr. Kingham said: "I think the Asquith government would be beaten at the polls to-day if it became necessary to appeal to the country. The reason is that there is great discontent over the insurance act because so far its benefits have not been obtained, while it has been all out of pocket payments for the working classes. The situation will be very different when the act has had an opportunity to take root in the public life, like the old-age pension system, and twelve months hence the prejudice will have been outlived. The great gulf between the rich and poor grows wider each year, and no one going over from this country can fail to see how the line of demarcation between the very rich and the very poor is becoming more marked. Display is commoner, and poverty more in evidence. These facts have shaped the social reform policy of the present ministry, but the full effect of it has not yet been realized."

"The country is stirred at the present time by the fight over Home Rule, and the opposition to its passage is undoubtedly very strong. There is, however, one phase of the situation in Ulster to which not enough attention, in my judgment, has been given, and that is the effect of the provocative speeches of the Unionist leaders in stirring up armed opposition, must have when the Unionists return to power. I mean that if the majority in Ireland are robbed of self-government when it seems so close to realization they will be induced to adopt the same tactics as the Conservatives are teaching Ulster now, and it will be impossible to maintain government in Ireland except by the bayonet."

"There is a great deal of attention being given Canada now in financial circles, and a general impression seems to exist that the west is borrowing more money for public improvements than the market can absorb, resulting in sales of stock at a low figure, and municipalities getting very low prices for their debentures. Insofar as publicity work is concerned I was able to strengthen the friendly feeling with which this city and island is known in England, as being treasurer of the Vancouver Island Development League. I took some booklets with me from the league offices which I was able to distribute with success in hotels and similar places of public resort. It was rather wet while we were in Switzerland, but the charms of the country could not fail to be a revelation to us. We stayed off in Paris, and visited other places. Altogether our European tour was a great success."

"Returning to Canada, in Toronto we had the good fortune to be at the King Edward hotel at the same time as Sir Wilfrid Laurier, who was in the city in connection with his Ontario tour, in which he has been accorded most enthusiastic receptions. I had the good fortune to have a talk with the premier."

"There is one thing I should like to tell you as a practical example of the workings of the British preference. I needed a motor delivery wagon for my business, and in the United States made a number of inquiries from the manufacturers. When I got to England I also looked into the situation there, and as a direct result of the British preference I am able to buy a British made article \$250 to \$400 cheaper delivered in Victoria as compared with the American article. That I think is a clear example of the advantage of the British preference."

"My lad," asked the clergyman of a small boy, "who is that gentleman you attend church with?"

"Grandpa," was the reply.

"Well," said the clergyman, "if you will only keep him awake during my sermon I'll give you a cent each week."

The boy fell in with the arrangement and for the next two weeks the old gentleman listened attentively to the sermon. The third week, however, found him soundly asleep.

The clergyman called the boy to him and said:

"Your grandpa was asleep again to-day. Didn't I promise you a cent a week to keep him awake?"

"Yes," replied the boy, "but grandpa now gives me two cents not to disturb him."

So long ago as 1732, Michael Menzies, of Edinburgh, invented a threshing machine. The entire inhabitants of the sea live on each other, and the whole of the immense expanse of water is one great slaughter-house, where the strong always prey upon the weak.

The Victoria Home Purchase Society

THE OPPORTUNITIES of acquiring revenue-producing property in or near to the city of Victoria, are, for the majority of people, becoming fewer daily. This is universally conceded. What course is open then to the investor of moderate means? It would seem he has two alternatives:

He can bury his savings in the wilderness, taking up unimproved lots in some faraway subdivision, which may, or may not, return him an increment in many years time; or he can take up a contract of the Victoria Home Purchase Society, and by so doing make absolutely sure that his every dollar is doing duty, and in a position to earn for him every last cent that is coming to it.

THE VICTORIA HOME PURCHASE SOCIETY is a Victoria institution, backed by English capital. It has been formed to enable the man of limited means to borrow money at a low rate of interest wherewith to purchase property on the instalment plan.

The society issues its Contracts in series of fifteen; the holders thereof being so associated for mutual co-operation. The funds of each series are kept distinct and separate.

The initial payment on a contract, entitling a holder to the benefits of the Society, is thirty-eight dollars. Subsequent payments are eleven dollars monthly for a period of forty-two months. Five per cent. per annum is paid on all deposits made prior to a loan being granted. Sums of not less than five dollars are received, bearing interest at 5 per cent., which, when amounting to thirty-eight dollars entitle a depositor to a contract immediately.

Having received his contract the holder of it is at once associated, and takes part with fourteen other holders in a drawing for the sum of \$500, that being the amount of the contract. If successful (and all have an equal chance), \$500 is then at his disposal to make to the Society a first payment upon a home. His dues thereafter are \$11 monthly, and five per cent. upon the capital advanced to him under the contract. Drawings take place in each series at three-monthly intervals over a period of forty-two months, when every member of a series will have secured his home.

The plan of drawing for a loan has stood the test of time and been found the most equitable possible to devise. By it everyone interested has an equal chance, and knows, in this Society at least, that his chance cannot long be delayed.

The affairs of the Victoria Home Purchase Society are in the hands and under the supervision of its Contract Holders themselves entirely. A member of each series is appointed by his associates to act in conjunction with the management in all matters relating to the business of that series. All cheques are countersigned by him, and the books of the Society are open for his inspection at any time.

The right time to buy property in Victoria is NOW. Values in the City and its immediate vicinity can never be less. Do you grasp that?

By taking up a contract of the Victoria Home Purchase Society you may at once, or in the near future, be in a position to buy, and so reap the benefits that cannot but accrue to foresight, sagacity and thrift. Call at the offices of the Society and the management will endeavor to convince you that by a system of co-operation, in the making of small monthly payments for a short period, you may found a fortune.

ELDERLY FOLKS! CALOMEL, SALTS AND CATHARTICS AREN'T FOR YOU

Harmless, gentle "Syrup of Figs" is best to cleanse your stomach, liver and 30 feet of bowels of sour bile, decaying food, gases and clogged-up waste

You old people, Syrup of Figs is particularly for you. You who don't exercise as much as you need to; who like the easy chair. You, whose steps are slow and whose muscles are less elastic. You must realize that your liver and ten yards of bowels have also become less active.

Don't regard Syrup of Figs as physic. It stimulates the liver and bowels just as exercise would do if you took enough of it. It is not harsh like salts or cathartics. The help which Syrup of Figs gives to a torpid liver and weak, sluggish bowels is harmless, natural and gentle.

When eyes grow dim, you help them. Do the same with your liver and bowels when age makes them less active. There is nothing more important. Costive, clogged-up bowels mean that decaying, fermenting food is clogged there and the pores or ducts in these thirty feet of bowels suck this

decaying waste and poisons into the blood. You will never get feeling right until this is corrected—but do it gently. Don't have a bowel wash-day; don't use a bowel irritant. For your sake, please use only gentle, effective Syrup of Figs. Then you are not drugging yourself, for Syrup of Figs is composed of only luscious figs, senna and aromatics which cannot injure.

A teaspoonful to-night will gently, but thoroughly, move on and out of your system by morning all the sour bile, poisonous fermenting food and clogged-up waste matter without gripe, nausea or weakness.

But get the genuine. Ask your druggist for the full name, "Syrup of Figs and Elixir of Senna." Refuse, with contempt, any other Fig Syrup unless it bears the name—prepared by the California Fig Syrup Company. Read the label.

FATHER VAUGHAN'S SERMONS.

To the Editor:—While I have no intention of commencing a religious controversy with Mrs. Alice M. Christie, I must beg a little of your valuable space in which to make a few remarks regarding her letter, which appeared in your paper of 9th inst.

Unlike your correspondent I had the privilege of being present at Father Vaughan's sermon last Sunday at St. Andrew's cathedral in Victoria.

I would like to point out to Mrs. Christie that while the remarks which she quotes from the sermon are quite correct she does not seem to realize the nature of the sermon itself.

Father Vaughan opened his remarks by stating that while he realized that many non-Catholics were listening to him, and while they were all most warmly welcome, they must forgive him if he said anything that in any way hurt their feelings.

He went on to say that he—a Catholic priest—preaching in a Catholic cathedral—was first and foremost preaching to his own flock.

Herein lies the crux of the whole situation.

While, as before said, everybody of every denomination was heartily welcome, Father Vaughan did not "desire a mixed congregation."

He came to Victoria to preach and lecture first and foremost to the Catholics of Victoria.

I utterly fail to see any occasion more suited to an eulogy upon the Catholic religion than that of a Catholic priest preaching in a Catholic cathedral to a Catholic congregation, nor do I see how any fair-minded person can see any violation of good taste in this.

Everyone knew that they were going to a Catholic church to hear one of the foremost Catholic preachers of the day—did they then imagine they would hear a dissertation upon the beauties of the Protestant churches?

With regard to the balance of Mrs. Christie's letter, she has a perfect right to have her own convictions as to the "true faith," and to state them as publicly as she wishes.

But does she think that it is in any better taste for her to state her religious views through the medium of a public newspaper than for Father Vaughan to state his from the pulpit of his own church?

COLIN HOGG.

SHELLING THE TURKS.

To the Editor:—The devil was kicked out from heaven, and fell on the earth. The distance being so great he struck the earth with much force, and was broken to atoms. His head fell in Spain, his heart in Italy, his stomach in Germany, his feet in France, his lungs in England, his liver in Russia, his spleen in Austria, his hands in Turkey and the rest of his body in different parts of the earth. That is the reason why the French like women, the Germans to gormandise, the Italians to love, the Russians to tyrannize, the Austrians to be troublesome, the English to expand, the Spaniards to be proud, and the Turks to rapine.

Now, sir, the time has arrived when the rapacious race must not go any further, and the nations that were robbed by the Turks have at last come together to smash the devil's hands, and put them where they really belong; so Europe will be free once more for a time.

It is almost funny the small nations naming the six big nations protective powers. As a matter of fact, the big nations do protect the small ones when there is a chance for them to get the best and biggest share of the spoil, but if, as in the case in hand, there is none, they put their foot down on it, and if they don't mind—like naughty boys who don't mind mother—they get up their big guns, get out the warships and bombard—whom?—the Greeks, the first Christians. They who gave the illuminating candles of education and civilization to the world and preserved Christianity; they who were robbed of liberty, life and property by the un-Christian Turks in the days gone by.

In 1821 the small, small country (Greece) was left alone to fight for its liberty from the Turks of Asia—a mighty powerful Turkey those days, by the way—and the present mighty protective powers of Europe stood and watched the Turks while committing the most destructive and savage deeds that were ever perpetrated on the face of the earth, ruthlessly killing brave men and women, and even children, who were fighting for their liberty. That not being enough for the brutes (I can find no other name which suits them so well, and begging the brute's pardon) they built fires and devastated the whole Peloponnesus, one of the finest pieces of land on earth—that part of

the country that to-day supplies the world with the finest currants of many varieties which up other country can produce. While all this was going on the protective powers of Europe acted the same part as an audience in an ordinary theatre, and enjoying a good play. To their surprise the small handful of Greeks, by this time the war having lasted seven years—there was only two million left out of the three million in the beginning of the struggle—were beating the mighty brutes pretty badly, so all the audience, the mighty protective powers, of to-day, thought the Turks had had enough, and brought the struggle to an end by sacrificing a few of their ships in the battle of Navarino.

To-day they put their hands, not on the Turks, but on the real Christians. Why in the name of God don't the powers let the small powers of Greece, Serbia, Montenegro and Bulgaria wipe out the brutish Turks from Europe and islands along the coast of Asia? They pretend that war would draw the powers into it, but there is no reason for this. They can keep their hands off it if they want, but vulgarly there is "a nigger in the woodpile." They are waiting to see what they will get out of it.

I see by to-day's dispatches that the Pope of Rome has made announcement that he will offer his mediation to settle the trouble between Turkey and the small nations. What does that mean? Simply another "alger." The Pope hasn't much power down in that part of the country, and perhaps he is expecting to get some privilege from Turkey for his own benefit.

In the days gone by when there was need for help, the Church of Rome never offered to help the Christians. The fall of Constantinople is not forgotten yet by the rest of the world. That was the proper time for the Roman Church to give help, and it needed very little, too, to keep the Mohammedans off the land of Europe.

Now, when we are in a position to send the Turks out of Europe, I am sure we do not need his mediation. These are facts that the just person cannot confute. I may come back on this question, or others that may touch this one.

D. L. BANCROFT.

"Pomander Walk."

The attraction announced for Victoria theatre next October 15 and 16 is the comedy, "Pomander Walk," which delighted New York an entire season. It is the work of Louis N. Parker, heretofore known chiefly as the author of "Rosemary," a beautiful comedy in which John Drew and Maude Adams won great success over a decade ago, and of "Disraeli," in which George Arliss scored his great hit last season. Many of the first-night audience declared that the play was a hit from the moment the curtain rose upon its unique stage setting. This shows a crescent (the English term is "Walk") of six Queen Anne cottages situated "out Chiswick way half way to Fairyland." The queer little people who inhabit the Walk, are London suburbanites of the year 1805. There is a retired admiral, who was wounded under Nelson, a former butler, who poses as a man of consequence; the charming widow of a Frenchman and her still more charming daughter, and many other quaint folk, who are of one piece with their picturesque surroundings.

The players, who were originally selected by The Liebler Co. to enact this delightful play, will all appear during the local engagement. They are all English, though many have achieved brilliant American records. The Sheehan English Opera Company.

The Sheehan English Opera Company, which will present "Il Trovatore" at the Victoria theatre on Thursday, October 17, has been playing to capacity houses in every city played since their opening date at the Blackstone theatre, Chicago.

The all-star double cast, the large chorus and the special grand opera orchestra, are on a whole responsible for the tremendous patronage and popularity of the Sheehan organization this season.

When the Sheehan English Opera Company appeared here last season, Mr. Sheehan "was suffering with a severe cold, but not wishing to disappoint his many admirers, Mr. Sheehan managed to finish his performances though forced to cancel three weeks of his following tour. After a three months' trip in Europe and mountain climbing and other healthful exercises, Mr. Sheehan emerges this season reduced in weight and singing better than ever in his wonderful career.

"The Chocolate Soldier."

Unlike many operettas of later days, of which the popularity hangs upon a single melody, "The Chocolate Soldier" is given credit with being possessed of an abundance of good things. In addition to the now generally whistled "My Hero" waltz, there is another such movement, "Tirialola," of almost equal fascination, while the "Letter Song," the swelling finales of the first two acts, the dreamy lilt of the "Falling in Love" duet, and the sprightly "Chocolate Soldier" song are each said to be equal to the support of a work less prodigal of good things for the musical epicure. Victoria theatre, October 15 and 16.

MUSICAL TREAT AT ALEXANDRA CLUB

FIRST CONCERT OF LADIES' MUSICAL CLUB

Capable Artists Were Assisted
by Arion Club—Madame
Gadski on November 8

A splendid audience assembled last evening at the Alexandra Club for the first of the non-professional concerts of the Ladies' Musical Club season, this inaugurating in a most auspicious manner the series of programmes which will be given at intervals between now and next May. The gathering was both large and representative of Victoria's musical circles, and evinced the interest which is every year growing more keen and more critical where matters of music are concerned.

Before the concert commenced the

president, Mrs. H. Robertson, came on the platform and announced that this would open the amateur season's work of the Ladies' Musical Society, thanking those present for having shown their interest by coming, also those who had given their support to the professional concerts which were inaugurated last Friday night at the Victoria theatre when the Martin-Ganz recital was given. After announcing that the next of the professional concerts would be that of Mme. Gade, which is to take place in the Victoria theatre on November 8, and the next amateur concert on the afternoon of the following day, Mrs. Robertson withdrew amid the applause which followed, and the Arion Club took their place on the stage.

This is the first time the Ladies' Musical Club have been so fortunate as to secure the services of such a well-trained male choir as the Arion Club, and the audience were not slow to show their appreciation of the melodious and beautifully phrased harmonies of Gericke's "Awake My Love," which were elicited from the thirty mated voices under the direction of Mr. Herbert Kent's baton. Modestly declining to respond to the hearty applause which rewarded their efforts, the choir resumed their seats in the audience after singing, and Miss Long, well-known and deservedly popular among the patrons of these concerts, gave a series of three pianoforte numbers, the first, a Romance by Sibelius, proving particularly attractive, and which, followed by

two difficult Rachmaninoff selections, once more showed the player's finished technique and almost faultless execution. Later in the programme Miss Long delighted her audience by giving two Chopin selections, the first—Fantasy in F Minor—being so delightfully played that an encore was called for, when another of the Polish composer's works, a Prelude, was given, and played with equal charm.

Miss Eva Hart's appearance was greeted with applause, her first selection being the quaintly musical "She Wandered Down the Mountain Side," by Frederick Clay—an old-fashioned, yet melodious song which seems to fit well among the more modern ballads affected by this sweet soprano singer. Elsa Lehmann's "Daddy's Sweetheart," as an encore, was—as it always is—a very popular response to the applause of her audience, while the two songs on the second half of the programme, "Come Sweet Morning," and "May Day," by A. L. and Walthew, respectively, were almost equally well suited to the bright high notes of this finished vocalist, who once more returned to the platform in response to the demonstration of approval, and sang Batten's charming melody, "My Cherub."

Among other distinguished features of the evening's programme none was more appreciated than the appearance of Miss Maude Scruby, the cellist from Vancouver, who has been heard here on only too rare occasions, and always at too short length. Her first number last evening—the sonorous "Kol Nidrei," by Max Bruch—was followed by Fischer's "A la Hongroise," as an encore, the second half of the programme also concluding with two numbers from her bow—Davidoff's Romance, and a scherzo from Godard, the humorous elements of the second being just sufficiently emphasized by the prayer to contrast artistically with the graver cadences so delicately interpreted in the first, Popper's "Herbst Blume" being given as an encore, and concluding the programme.

The Arion Club's second appearance during the evening was—at least to the audience—more gratifying than the first, as not only were two numbers given, but the conductor consented to an encore, "Pretty Maiden"—one of those melodiously humorous choruses which the Arion Club has always been able to give so effectively—was followed by a two-versed lyric, "Ashes of Roses," which is undoubtedly one of the most beautiful things the choir has ever attempted, and has proved its beauty by submitting, on both occasions when it has been sung in public, to repetition. This the conductor consented to last evening, to the delight of the audience, whose appreciation of both the beauty of words and composition was only equalled by their admiration of the interpretation and singing by this cleverly conducted choir of male voices.

Those who have attended the Ladies' Musical Club concerts in the past and have appreciated the great part which Mrs. A. J. Gibson, the honorary accompanist, has taken in the success of the several programmes, were delighted to see her in her old place at the piano again last evening. With such a truly accomplished and sympathetic accompanist to play for them, not only do the performers do greater justice to their art, but the audience may listen without apprehension of any of those mishaps which so often occur where the accompanist is less talented than Mrs. Gibson.

VICTORIAN ELECTED AT CONVENTION

A. E. Todd is Provincial Vice-President of Highway Association

Winnipeg, Oct. 11.—Officers for the coming year were elected yesterday at the convention of the Canadian Highway Association as follows: President, W. J. Kerr, New Westminster, re-elected; vice-president, F. E. Mutton, Toronto; secretary, P. W. Luce, New Westminster; treasurer, T. E. Baxter, vice-presidents, one for each province, British Columbia, A. E. Todd, Victoria; Yukon, George Black; Alberta, James McGeorge, Edmonton; Saskatchewan, Geo. Thompson, Indian Head; Manitoba, Mayor Fleming, Brandon; Ontario, W. J. Tretheway, Ontario; Quebec, G. A. Simard, Montreal; and New Brunswick, W. A. Anderson, St. John. Those for Nova Scotia and Prince Edward Island will be selected at a later date by the executive committee.

A deputation from the association will go to Ottawa to endeavor to secure financial aid from Premier Borden for the proposed transcontinental highway. The building of a road from Winnipeg to the head of the Great Lakes was discussed, but no action was taken.

CANADIAN MAGAZINE.

The Canadian Magazine for October is notable for the quality and quantity of its fiction. The first story, "Valuable Space," by Ethel Seymour, a young Canadian writer, is an exceptionally fine newspaper tale. There is a fine story of the wilds by C. Lintern Sibley, with other stories of absorbing interest by George Randolph Churchill, Harold Eyre and G. A. Palmer. Dr. J. D. Logan contributes an analytical essay entitled "The Witchery of Woman's Smile," with illustrations, and there are as well "The Ring in Hyde Park," by John Edgumbe Staley, "A Tennysonian Interpretation," by Professor Adam Carruthers, "The Queen Victoria Niagara Falls Park," by Frank Yeigh, "How Much Shall I Tip?" by Louise Hayter Birchall, "The Art of Mary Ritter Hamilton," by Florence E. Deacon, and a sketch of E. J. Chamberlain, the new president of the Grand Trunk railway system.

Bees can see a great distance, and when they are away from their hives they fly up in the air and look for the direction of their habitations. Then they fly towards them in a straight line. Thus the term "bee-line" has become an expression signifying the shortest possible distance between two points.

Eastern Money Market Is In Good Shape

That the Eastern money market is in first-class shape and quite prepared to cope with the rapid advancement of the West, was the statement of Mr. J. A. Richardson, manager of the Imperial Bank in Montreal, who was in Victoria this week. This is just one more indication of the fact that property values will rise materially in Victoria during the next few months, notably in residential real estate. Mr. Richardson's statement means that the excellent Middle Western wheat crop will be handled adequately. That means that hundreds of people with money to invest will come to Victoria this autumn and winter. HAVE YOU ANY PROPERTY TO SELL? ARE YOU PREPARED TO PROFIT BY THE RISE IN VALUES? BUY A LOT OR TWO TO-DAY IN

The money necessary to hold one of these lots is so little that the proposition is especially attractive to small investors. Yet, the lots in "Irvine Place" are such delightful homesites and so well situated that they are certain to attract the favorable attention of visitors looking for homesites. "Irvine Place" prices are below market value now. There is more room for advancement and profit in this property than in any other on the market to-day.

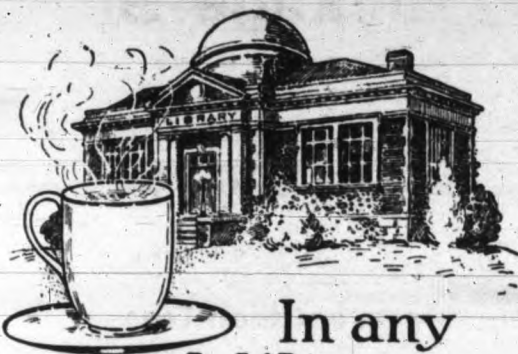

The lots are all quarter acres, ready to build on. Property lies in a district that is already developing at a very rapid rate. Several fine houses have been built, one costing \$20,000. Others are in course of erection. Surrounding neighborhood is high class. School, store, church and post office are near. Street car line right past property expected in short time. Line built now to within fifteen minutes' easy walk of "Irvine Place." Roads all about are excellent.

DON'T WAIT UNTIL PRICES RISE. BUY NOW AND LET THE RISE BE YOUR CLEAR PROFIT. IT'S AS SAFE AS SAVING, AND A HUNDRED TIMES QUICKER. GET A LOT OR TWO TO-DAY.

In any
good library
you can learn
why you should
drink cocoa—

Ask the librarian to show you the authoritative books on dietetics. Turn to the chapter on beverages. You will learn that of the three most extensively consumed table beverages—tea, coffee and cocoa—cocoa is distinctly beneficial, whereas tea and coffee are frequently injurious.

Of course there are folks of rugged constitutions who drink tea and coffee and apparently feel no ill effects.

But there are many more not so rugged. Good cocoa offers them a wholesome, nourishing food in liquid form.

In Lowney's they get cocoa at its very best. Handlers of cocoa beans will tell you that we buy the most costly cocoa beans that the tropics afford. These beans are made into delicious cocoa at our neat-as-a-pin factory at Montreal.

Sold by grocers. In tins—10c to 50c sizes.

LOWNEY'S COCOA

The Best Way to Make Cocoa

Mix two even tablespoonsful of cocoa with two of sugar. Add ¼ teaspoonful of salt. Mix gradually with two cups of boiling water. Stir to a smooth paste. Boil 5 minutes. Add two cups of scalded (not boiled) milk, and beat with an egg-beater until frothy.

Dated this First day of October, 1912.

MEMORIAL SERVICES.

London, Oct. 11.—An arrangement has been made by Lord Strathcona, at the instance of Premier Borden, for a service to be held at St. Paul's cathedral on Monday next, to commemorate the one hundredth anniversary of the death of General Sir Isaac Brock and of his services to the empire. Lord Strathcona will give a short address and place a wreath on behalf of the government and people of Canada on the Brock monument in the cathedral. The secretary of state for the colonies and Hon. G. E. Foster, are also expected to be present.

BRAKEMAN KILLED.

Tacoma, Wash., Oct. 11.—George G. Vance, a brakeman on the North Coast Timber Company's road, was killed when a log rolled off a car and crushed him against a stump. He was 35 years old and came from Olympia, Wash.

Financial News**CANADIAN PACIFIC****SHARES DECLINE**Drop Ten Points in New York
—Balkan Situation Unsettles Market

(Courtesy F. W. Stevenson & Co.)
New York, Oct. 11.—It was fully apparent from the opening that the tenor of the stock market was unsettled, influenced in the main by the lower range of prices of Americans in London, on the unfavorable Balkan news. Heavy liquidation in Berlin and Paris, and panicky feeling on almost every foreign stock exchange, where Turkish, Russian and Balkan securities were said to be greatly depressed, were all deranging influences.

Canadian Pacific lost practically ten points from yesterday's close, which is not surprising, considering the amount held for foreign account. The rest of the list were all off, and weakness obtained right till the close.

PORTLAND CANAL**AGAIN IN DEMAND**Centre of Interest on Local
Exchange—Granby and
Packers Attractive

Victoria, Oct. 11.—Some little interest centered around Portland Canal M. Co. this morning on the local exchange, one thousand shares selling at .035-8c, and one thousand at .031-2c. The closing price was .031-4 to .031-2c. The stock was selling as high as .04c in Vancouver yesterday, and Glacier Creek at .041-2c, which reveals in part the better feeling being created by the tunnel scheme now pending. Granby are bound to be influenced by the present panicky condition of foreign stock markets, but on any declines will offer opportunities to investors.

WHEAT CLOSES**AT TOP PRICES**Advance in the Chicago Pit—
Bearish Influences Fail to
Check Movement

(Courtesy F. W. Stevenson & Co.)
Chicago, Oct. 11.—Even the ultra-bearish influences of government reports, heavy receipts and enormous yields lost their force to-day in face of the Balkan news. At no time was there a disposition to decline prices in the Chicago pit, and the close was at the high point for the day, showing net gains of 1 to 1 1/2 cents. The market is one that is dependant almost entirely on the outcome of the present European hostilities, for while the natural condition is considered bearish, unfavorable developments in regard to the latter would easily change the temper of the trade. Bull leaders also stick to the theory of small accumulation of wheat stocks in all quarters, and the probability that Europe will need large quantities of dry wheat from this side because of wet low grade grain at home.

The same influence affected the action in corn and oats in an otherwise bearish market. Unsettled weather is a bullish factor for corn.

BIG WAVES TAKE LOGS FROM STEAMER'S DECK

San Francisco, Oct. 11.—The Japanese freighter Tauraugian arrived from Otaru yesterday with a cargo of oak logs after a passage in which much heavy weather was encountered. On September 25 heavy boarding seas swept 100 logs overboard. This is the Tauraugian's first visit to the Coast. Her advent has brought to the fore rumors that the Japanese are purchasing many British tramp steamers.

MANUAL TRAINING.

Children From Outside Schools Will Soon Be Provided Locally.

It is understood that as soon as possible the children from Tolmie school, in the Saanich district, and Lampson street school in the Esquimalt district, who have been taking manual training instruction in the North Ward and Victoria West schools respectively will be withdrawn as soon as the districts are able to deal with the subject themselves.

Manual training is being systematically introduced at the schools of Saanich municipality, and classes are now being taken at the Craigflower school, but one division of Tolmie school continues to use the North Ward, but they will be withdrawn when provision can be made for them locally.

The building at the rear of the Lampson street school, it is understood, to be fitted up at an early date for manual training in that district for the school population of Esquimalt. The city will be glad of this relief, as the funeral accommodation is more than taxed by existing conditions.

The Blue Funnel liner Keemun is scheduled to sail from Yokohama to-morrow with a big cargo of European and Oriental freight for Victoria.

DIED.

BUNTING—On the 10th inst. at Jubilee hospital, Charles Roland Bunting, of 435 Niagara street, aged 46 years. Born in Victoria, B. C.

The funeral will take place on Saturday at 2.30 from the residence as above, where service will be held, to Ross Bay cemetery. Friends please accept this intimation.

TENDERS.

"THE PLAYGROUND OF THE CONTINENT"

NATURE LAVISH OF GIFTS TO VICTORIA

Mr. Kingham Says This City Has Unrivalled Advantages—Public Should Help

"My trip abroad has convinced me that Victoria enjoys advantages unequalled anywhere," remarked Joshua Kingham to a Times representative this morning. Mr. Kingham, as reported in another column, has just returned from an extensive tour of Europe and the East. "But," he continued, "we should do our part. Nature has been lavish in her gifts of climate and beauty to this city and we should lend a hand. Victoria should be the playground of the continent. By that I mean it should be made the most attractive tourist resort. 'We should develop a parks system along well-considered lines as other cities with not half our advantages are doing. We can get the tourists without difficulty, but we should provide entertainment for them while they are here. For instance, during my tour I made it a point to visit those resorts which had been made especially attractive to visitors and I found thousands who did the same. And not one of those places, despite their ingeniously planned attractions, was so strikingly adapted by climate and natural beauty for the purposes of a tourist resort as this city."

"I think we should do our utmost to utilize Mt. Douglas Park, for instance, and make it one of the most attractive beauty spots on the continent. And we have many other places which lend themselves to improvement and development on similar lines."

ENGINEERS RAPPED PREMIER'S KNUCKLES

Appointments of Americans at Strathcona Park Cause Protest From Local Society

Despite the promise of an enquiry into the appointment of United States civil engineers for the Strathcona park survey work, the civil engineers of the Victoria branch of the Canadian Society of Civil Engineers will not rest content, but will communicate with officers of their society at Vancouver, Montreal, Toronto, Ottawa, etc., to have just action taken regarding the appointment of Canadian engineers for Canadian work. This was decided on by resolution at a meeting of the society here last night.

The promise referred to for an investigation, was made by Sir Richard McBride in reply to continued protests from the society regarding an American appointment made for Strathcona park development. The grievance is not only with Strathcona park, the civil engineers declare, but the government is favoring American engineers in other provincial work.

Practically admitting there has been discrimination against the Canadian civil engineers the premier wrote promising that in future the Canadian civil engineers would get preference. He asked that a member of the society should see him with a view to arranging for suggestions from the society in regard to the nominations of candidates for vacancies.

The society decided that the matter should be taken up throughout Canada and made a national one. It is with this view that communications will be sent to all branches of the society in the Dominion, urging that the society work for the appointment of Canadian

WHAT WILL BE ANNOUNCEMENT?

THE MUCH HERALDED STATEMENT DUE TO-NIGHT

Premier to Be Banquetted by Eight Hundred Admiring Followers

To-night the premier is billed to make his long-deferred announcement regarding the railway terminals. The occasion will be the "congratulatory" banquet for which about eight hundred tickets have been sold, but Sir Richard will require a megaphone if all his enthusiastic supporters present are to hear what he has to say, for even his voice, which invariably carries well, has its limitations.

The announcement which the public mind is prepared for is universally associated with the Canadian Northern Pacific entrance into the city. For months the matter has drifted on, and the government organ has cheered the hearts of the faithful with statements of prompt settlements, but hope deferred which maketh the heart sick has somewhat dampened the enthusiasm of those who have been anxiously awaiting some authentic information.

This is not the first "announcement" that has been made. The government organ some months ago published a rather moss-covered plan which was plainly such an inadequate affair that a special committee of the Board of Trade and the Inner Harbor Association petitioned the government to see that it did not go into effect. The government undertook to lay the plans before the city, and the various public bodies prior to reaching any decision.

The whole matter has been held up owing to the inability of the Canadian Northern Pacific and C. P. R. railways to reach an agreement as to the union station. The Canadian Pacific company did not care to divide control of a station with the Canadian Northern Pacific. If any settlement has actually been made it doubtless is in the nature of a compromise. The Canadian Northern Pacific is reported to be desirous of acquiring running rights over the E. & N., and if this is granted them a corresponding concession will have to be made the C. P. R. relative to the terminals site on the reserve. This much is certain: the C. P. R. will be the controlling factor in any union station that may be contemplated for the reserve.
